<b>Health Care</b>					
Healthcare Transaction Base <sup>13, 14</sup>		772	170	Named User Plus	50
		77.240	16.993	Processor	1

- <sup>1</sup> If licensing by Named User Plus, the minimum is 10 Named User Plus licenses per Processor.
- <sup>2</sup> Enterprise Edition Options & Enterprise Managers must match the number of licenses of the associated Oracle Database Enterprise Edition. In addition, a minimum of 25 Named User Plus licenses per Processor must be met. Associated Database is defined as the database(s) which is (are) being managed by the option.
- <sup>3</sup> Application Adapters are available for: PeopleSoft, SAP, Siebel & JD Edwards.
- <sup>4</sup> Mainframe and TP-Monitor Adapters are available for: CICS, IMS/DB, IMS/TM, VSAM, and Tuxedo.
- <sup>5</sup> Oracle Database Standard Edition can only be licensed on servers that have a maximum capacity of 4 processors. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses.  
Additionally, it may be licensed on a single cluster of servers supporting up to a maximum of four processors per cluster (2 2-way nodes, 4 1-way nodes, and 1 1-way and 1 3-way).
- <sup>6</sup> 2, 3, 4 and 5-Year Term Licenses are not available for Collaboration products. Customers must purchase Software Updates when purchasing Product Support. On Demand for Collaboration products is optional for customers purchasing Collaboration product licenses. Customers must purchase Software Updates and Product Support when purchasing On Demand. E-Business Discount Schedule applies to License, Software Updates, and Product Support fees. On Demand Discount Schedule applies to On Demand for Collaboration products. On Demand for this product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- <sup>8</sup> If licensing by Named User Plus, the minimum is 25 Named User Plus licenses per Processor.
- <sup>9</sup> Personal Edition provides a maximum of one Named User Plus per database.
- <sup>10</sup> Oracle Standard Edition One may only be licensed on servers that have a maximum capacity of 2 processors. If licensing by Named User Plus, the minimum is 5 Named User Plus
- <sup>11</sup> Internet Application Server Managers must match the number of licenses of the associated Internet Application Server (Excluding TopLink and Application Development Framework, for which these Manager Packs cannot be licensed).  
An associated Internet Application Server is defined as the Internet Application Server(s) which is (are) being managed by the option.
- <sup>12</sup> Standard Edition Options must match the number of licenses of the associated Oracle Internet Application Server Standard Edition. Associated Application Server is defined as the application server(s) which is (are) being managed by the option.
- <sup>13</sup> This product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- <sup>14</sup> For the purpose of licensing Healthcare Transaction Base, only the processors on which iAS Enterprise Edition and this program are installed and/or running are counted for the purpose of determining the number of processors required to license this program. For the purpose of licensing Customer Data Hub, only the processors on which Oracle Database Enterprise Edition and this program are running in production are counted for the determining the number of licenses required to license this program.
- <sup>15</sup> Internet Application Server Enterprise Edition Options must match the number of licenses of the associated Internet Application Server. Associated Application Server is defined as the application server(s) which is (are) being managed by the option.
- <sup>16</sup> Internet Application Server Standard Edition One may only be licensed on servers that have a maximum capacity of 2 processors. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses.
- <sup>17</sup> COREid Provisioning requires COREid Access and Identity to be licensed separately.
- <sup>18</sup> Provisioning Connectors are available for: Active Directory, SunOne Directory, SQL Feed, PL/SQL, File Based, Oracle HR, Oracle ERP, PeopleSoft and Oracle Portal
- <sup>20</sup> Java Edition options must match the number of licenses of the associated Oracle Internet Application Server Java Edition. Associated Application Server is defined as the application server(s) which is (are) being managed by the option.
- <sup>21</sup> Standard Edition One Options must match the number of licenses of the associated Oracle Internet Application Server Standard Edition One. Associated Application Server is defined as the application server(s) which is (are) being managed by the option.
- <sup>22</sup> Application Development Framework requires a runtime license. This can be purchases via Toplink and Application Development Framework or Java Edition  
5-Year Term License available at 70% of Perpetual License; 4-Year Term License at 60% of Perpetual License; 3-Year Term License at 50% of Perpetual License; 2-Year Term License at 35% of Perpetual License; 1-Year Term License at 20% of Perpetual License.  
For term licenses, the support fee calculation is 22% of the perpetual license fee.

Oracle Rdb

	Named User Plus	Software Update License & Support	Processor License	Software Update License & Support
Rdb Products				
Rdb Server Products <sup>1</sup>				
Rdb Enterprise Edition	618	136	30.896	6.797
CODASYL DBMS	618	136	-	-
Rdb Server Options:				
TRACE <sup>2, 3</sup>	77	17	3.862	850

5-Year Term License available at 70% of Perpetual License; 4-Year Term License at 60% of Perpetual License; 3-Year Term License at 50% of Perpetual License; 2-Year Term License at 35% of Perpetual License; 1-Year Term License at 20% of Perpetual License.

For term licenses, the support fee calculation is 22% of the perpetual license fee.

## Oracle E-Business Suite

- <sup>1</sup> An option must be licensed at the same level as its parent. Example: number of Flow Manufacturing users = number of Discrete Manufacturing users. If the parent has multiple metrics, the option must be licensed at the same level as its parent for each metric. Example: number of Advanced Pricing users = number of Order Management users AND number of Advanced Pricing Electronic Order Lines = number of Order Management Electronic Order Lines.
- <sup>2</sup> Primary Usage: is defined as each User of the following applications: Financials, Discrete Manufacturing, Process Manufacturing, Project Costing and Purchasing. Each such User is counted only once based on primary usage. You must specify how many Users you are licensing for each application. Primary Usage of one of the applications listed above provides the User with the right to use any or all of the other application programs listed above for which you are licensed. Primary Usage does not provide you with the right to use other application programs including the extensions or options to the application programs listed above.
- <sup>3</sup> Order Management is licensed based upon the number of application users AND the number of order lines entered from any source other than those entered by licensed Order Management Users. Order Management User licenses are required for all individuals who are using Order Management. In addition, any order that is entered electronically into Order Management must be licensed using the Electronic Order Line metric. This applies to order lines originating in iStore, Quoting, EDI/XML transactions, legacy applications or any other source. (Order lines entered manually by the licensed Order Management users are covered under the Order Management User license)
- <sup>4</sup> For the purpose of licensing this program (except Healthcare Transaction Base and Customer Data Hub), only the processors on which iAS Standard Edition and/or Enterprise Edition and this program are running are counted for the purpose of determining the number of processors required to license this program.  
For the purpose of licensing Healthcare Transaction Base, only the processors on which iAS Enterprise Edition and this program are installed and/or running are counted for the purpose of determining the number of processors required to license this program. For the purpose of licensing Customer Data Hub, only the processors on which Oracle Database Enterprise Edition and this program are running in production are counted for the determining the number of licenses required to license this program.
- <sup>5</sup> The number of Applications Users for Tutor for Applications must match the number of Application Users of each Application for which the customer is using Tutor. If the application is licensed with a metric based on all the individuals in an organization, i.e., Person, Employee, then everyone in the LOB or organization must be licensed using the Self Service Tutor for Applications. If the application is licensed with any other metric, i.e., Purchase Line, Order Line, then the number of Application Users for Tutor for Applications must match the number of Application Users that the customer would have licensed for the application, had this metric been available.
- <sup>6</sup> Configurator can be licensed by Application User OR by Processor. If licensing by Application User, then the actual users accessing Configurator must be counted. If the user population accessing Configurator is uncountable, then the Processor metric must be used.
- <sup>7</sup> If licensed with Clinical, the total number of application users and application read-only users of Thesaurus Management System must match the number of application users of Clinical. If licensed separately, the minimum of application users for Thesaurus Management System is 1, the minimum of application read-only users is 5.
- <sup>8</sup> Customers must pay for both the module and the subscriber/workstation fee.
- <sup>9</sup> Separate Remote Data Capture licenses are required for remote site-based data entry. In-house entry users require Clinical licenses. Remote Data Capture is licensed by Application User when the annual CRF Page volume cannot be estimated, or if it is more cost effective.
- <sup>10</sup> If the customer is running Activity Based Management in conjunction with a 3rd party Financials application, and not Oracle Financials, then licenses of Oracle Financials are not required.
- <sup>11</sup> The customer is required to maintain Professional User 2003 licenses for at least 10% of the employee population.
- The official source for the total company employee population is the company's annual report for publicly held companies. For private firms, this information must be verified in writing by a person who is authorized to make such a representation on the firm's behalf
  - A company may not license the E-Business Suite 2003 at the division level, unless it has wholly owned subsidiaries. Lines of Business, Departments, and Organizations within a company are not eligible for the E-Business Suite 2003 pricing regardless of whether they meet the minimum licensing requirements
  - If a company's employee population grows by 10% or more and the company is no longer meeting the minimum license requirements, the company will need to purchase incremental user licenses to satisfy the 10% requirement
  - Once minimums are satisfied, they are not required to be met in subsequent purchases.
- <sup>12</sup> Customers who licensed Oracle applications under the E-Business Suite pricing model can continue to purchase licenses per pages 5 and 6 of the March 7, 2003 price list. This rule applies also to customers who do not have a price hold.
- <sup>13</sup> If Managed Assets are \$10 billion or less, the price per \$M in Managed Assets is 1.545. If Managed Assets are greater than \$10 billion, the price per \$M in Managed Assets for the first 10,000 licenses is 1.545, and the price per \$M in Managed Assets for each additional license is 772.
- <sup>14</sup> This product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- <sup>15</sup> Where Inventory Management is licensed across multiple plants or warehouses, the Inventory Management options (Mobile Supply Chain Applications, Warehouse Management) can be licensed
- <sup>16</sup> Where Discrete Manufacturing is licensed across multiple plants, the Discrete Manufacturing options (Mobile Supply Chain Applications, Flow Manufacturing, Manufacturing Scheduling) can be licensed individually for each plant. Within each plant using the Manufacturing option, the option must be licensed at the same user count as Discrete Manufacturing.
- <sup>17</sup> Where Projects is licensed across many lines of business, the Project Billing option to Project Costing can be licensed individually for each line of business using the Oracle Projects solution. Within each line of business using the Project Billing option, the option must be licensed at the same user count as Project Costing.
- <sup>19</sup> 2, 3, 4 and 5-Year Term Licenses are not available for Collaboration products. Customers must purchase Software Updates when purchasing Product Support. On Demand for Collaboration products is optional for customers purchasing Collaboration product licenses. Customers must purchase Software Updates and Product Support when purchasing On Demand. E-Business Discount Schedule applies to License, Software Updates, and Product Support fees. On Demand Discount Schedule applies to On Demand for Collaboration products. On Demand for this product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- <sup>20</sup> Where Process Manufacturing is licensed across multiple plants, the Process Manufacturing option (Manufacturing Scheduling) can be licensed individually for each plant. Within each plant using the Manufacturing option, the option must be licensed at the same user count as Process Manufacturing.
- <sup>21</sup> Sales Contracts Application User licenses are required for all contract administrators, legal staff, order administrators and sales personnel who manage the contracts library or author contracts.

## DEFINITIONS

**Named User Plus:** is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. A non human operated device will be counted as a named user plus in addition to all individuals authorized to use the programs, if such devices can access the programs. If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor minimums are maintained for the programs contained in the user minimum table in the licensing rules section; the minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

**Processor:** shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a Processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. For the purposes of counting the number of processors which require licensing, a multicore chip with "n" processor cores shall be counted as "n" processors.

**Professional User 2003:** is defined as an individual authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time. Professional Users 2003 are allowed to manually enter orders directly into the programs but any orders entered electronically into Order Management from other sources must be licensed separately.

**Professional User 2003 - External:** is defined as an individual, who is not your employee, contractor or outsourcer, authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time. Professional Users 2003 - External are allowed to manually enter orders directly into the programs but any orders entered electronically into Order Management from other sources must be licensed separately.

**Application User, Field Sales User, Financials User, Inventory/Shipping User, Marketing User, Manufacturing User, Purchasing User, TeleSales User, Enterprise Asset Management (EAM) User:** is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Self Service Work Request option in conjunction with EAM, you are required to maintain licenses for the equivalent number of EAM Users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion date for your entire employee population.

**Application Read-Only User:** is defined as an individual authorized by you to run only queries or reports against the application program for which you have also acquired non read-only licenses.

**Collaboration Program User:** is defined as an individual authorized by you to use the programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. For the purposes of counting and licensing the number of Web Conferencing users, a Collaboration Program User within your company is defined as a user able to initiate, or host, a web conference and also participate in a web conference; all participants in the web conference external to your company and attending a web conference are not required to be licensed.

**Annual Transaction Volume:** is defined as the U.S. dollar denominated total value of all purchase orders transacted and all auctions conducted through the Oracle Exchange Platform by you and others during the applicable year of the Oracle Exchange Platform license regardless of whether any such auction results in a purchase order, provided that an auction resulting in a purchase order shall only be counted against the Annual Transaction Volume once.

**Case Report Form (CRF) Page:** is defined as the "electronic equivalent" of what would be the total number of physical paper pages initiated remotely by the Program (measured explicitly in the Program as Received Data Collection Instruments) during a 12-month period. You may not exceed the licensed number of CRF pages during any 12-month period unless you acquire additional CRF pages licenses from us.

**Compensated Individual:** is defined as an individual whose compensation or compensation calculations are generated by the programs. The term Compensated Individual includes, but is not limited to, your employees, contractors, retirees, and any other Person.

**Computer:** is defined as the computer on which the programs are installed. A Computer license allows you to use the licensed program on a single specified computer.

**Connector:** is defined as each connector connecting the software [product with an external product. A unique connector is required for each distinct product with which the software product is required to interface.

**Cost of Goods Sold:** is defined as the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to you then Cost of Goods Sold shall be equal to 75% of total company revenue.

**Electronic Order Line:** is defined as the total number of distinct electronic order lines entered electronically into the Oracle Order Management application from any source (not manually entered by licensed Order Management Users, Professional Users 2003, or Professional Users 2003 External) during a 12 month period. This includes order lines originating as external EDI/XML transactions and/or sourced from other Oracle and non-Oracle applications. You may not exceed the licensed number of order lines during any 12 month period.

**Employee:** is defined as an active employee of yours. *(note: The value of these applications is determined by the size of the active employee population and not the number of actual users. Therefore, all of your active employees must be included in your order when licensing these applications.)*

**Employee User:** is defined as an individual authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time. Your human resource personnel that require access to the Oracle Self Service Human Resources program may not be licensed as Employee Users, but must be licensed as Professional Users. Additionally, your technical support personnel that require access to the Oracle iSupport program may not be licensed as Employee Users, but must be licensed as Professional Users.

**Entry:** is defined as a unique item (e.g., object, person, entity or item of information) stored within the programs. Replicated entries stored within the program on multiple servers are counted as a single entry.

**Expense Report:** is defined as the total number of expense reports processed by the iExpenses during a 12 month period. You may not exceed the licensed number of expense reports during any 12 month period.

**Federated Link:** is defined as a one-to-one pairing between a source domain and a destination domain. A source domain is the point of origin for a request. A destination domain contains the resource that users from source domains want to access. One source domain might have many pairings with different destination domains and one destination domain might have many pairings with different source domains. Each and every pairing is a federated link.

**Field Technician:** is defined as an engineer, technician, representative, or other person who is dispatched by you, including the dispatchers, to the field using the programs.

**FTE Student:** is defined as any full-time student enrolled in your institution and any part-time student enrolled in your institution counts as 25% of an FTE Student. The definition of "full-time" and "part-time" is based on your policies for student classification. If the number of FTE Students is a fraction, that number will be rounded to the nearest whole number for purposes of license quantity requirements.

**Hosted Named User:** is defined as an individual authorized by you to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

**Invoice Line:** is defined as the total number of invoice line items processed by the program during a 12 month period. You may not exceed the licensed number of Invoice Lines during any 12 month period unless you acquire additional Invoice Line licenses from us.

**Module:** is defined as each production database running the programs.

**Non Employee User - External:** is defined as an individual, who is not your employee, contractor or outsourcer, authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time.

**Order Management User:** is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. Order Management Users are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately.

**Partner Organization:** is defined as an external third party business entity that provides value-added services in marketing and selling your products. Depending upon the type of industry, partner organizations play different roles and are recognized by different names such as reseller, distributor, agent, dealer or broker.

**Person:** is defined as your employee or contractor who is actively working on behalf of your organization or a former employee who has one or more benefit plans managed by the system or continues to be paid through the system. For Time and Labor, a person is defined as an employee or contractor whose time or labor (piece work) or absences are managed by the system. For Project Resource Management, a person is defined as an individual who is scheduled on a project. For Internet Time, a person is defined as an individual who is charging time to a project via the application. The total number of licenses needed is to be based on the peak number of part-time and full-time people whose records are recorded in the system.

**Ported Number:** is defined as the telephone number that end users retain as they change from one service provider to another. This telephone number originally resides on a telephone switch and is moved into the responsibility of another telephone switch.

**Purchase Line:** is defined as the total number of purchase line items processed by the application during a 12 month period. Multiple purchase lines may be created on either a requisition or purchase order or may be automatically generated by other Oracle Application programs. For iProcurement, Purchase Lines are counted as all line items on an approved requisition created in iProcurement. For Purchasing Intelligence, Purchase Lines are counted as the line items on purchase orders processed through this application. This does not include communication on the same P.O.. For each application, you may not exceed the licensed number of Purchase Lines during any 12-month period unless you acquire additional Purchase Line licenses from us. You may acquire a different number of Purchase Line licenses for each program (Number of Purchase Lines for iProcurement could be a smaller number than for Purchasing Intelligence).

**RosettaNet Partner Interface Processes® (PIPs®):** are defined as business processes between trading partners. Preconfigured system-to-system XML-based dialogs for the relevant E-Business Suite Application(s) are provided. Each preconfigured PIP includes a business document with the vocabulary and a business process with the choreography of the message dialog.

**Service Order Line:** is defined as the total number of service order entry line items processed by the program during a 12 month period. Multiple service order entry line items may be entered as part of an individual customer service order or quote. You may not exceed the licensed number of Service Order Lines during any 12 month period unless you acquire additional Service Order Line licenses from us.

**Subscriber:** is defined as (a) a working telephone number for all wireline devices; (b) a portable handset or paging device that has been activated by you for wireless communications and paging; (c) a residential drop or a nonresidential device serviced by a cable provider; or (d) a live connected utility meter. The total number of Subscribers is equal to the aggregate of all types of Subscribers. If your business is not defined in the primary definition of Subscriber above, Subscriber is defined as each U.S. \$1,000 increment of your gross annual revenue as reported to the SEC in your annual report or the equivalent accounting or reporting document.

**Suite:** is defined as all the functional software components described in the product documentation.

**System:** is defined as each distinct production database. Test, development, failover and standby databases are not required to be licensed as systems; however, users may run the Program on these databases.

**Trainee:** is defined as an employee, contractor, student or other person who is being recorded by the program.

**Workstation:** is defined as the client computer from which the programs are being accessed, regardless of where the program is installed.

**\$M in Revenue:** is defined as one million United States dollars in all income (interest income and non interest income) before adjustments for expenses and taxes generated by You during a fiscal year.

**\$M in Managed Assets:** is defined as one million U.S. dollars of the following total: (1) Book value of investment in capital leases, direct financing leases and other finance leases, including residuals, whether owned or managed for others, active on the program, plus (2) Book value of assets on operating leases, whether owned or managed for others, active on the program, plus (3) Book value of loans, notes, conditional sales contracts and other receivables, owned or managed for others, active on the program, plus (4) Book value of non earning assets, owned or managed for others, which were previously leased and active on the program, including assets from term terminated leases and repossessed assets, plus (5) Original cost of assets underlying leases and loans, originated and active on the program, then sold within the previous 12 months.

## GENERAL LICENSING RULES

### TERM DESIGNATION

If your Program License does not specify a term, the Program license is perpetual and shall continue unless terminated as otherwise provided in the Agreement.

**5 Year Term:** A Program license specifying a 5 Year Term shall commence on the Effective Date of the order and shall continue for a period of 5 years. At the end of the 5 Year Term the Program license shall terminate automatically.

**4 Year Term:** A Program license specifying a 4 Year Term shall commence on the Effective Date of the order and shall continue for a period of 4 years. At the end of the 4 Year Term the Program license shall terminate automatically.

**3 Year Term:** A Program license specifying a 3 Year Term shall commence on the Effective Date of the order and shall continue for a period of 3 years. At the end of the 3 Year Term the Program license shall terminate automatically.

**2 Year Term:** A Program license specifying a 2 Year Term shall commence on the Effective Date of the order and shall continue for a period of 2 years. At the end of the 2 Year Term the Program license shall terminate automatically.

**1 Year Term:** A Program license specifying a 1 Year Term shall commence on the Effective Date of the order and shall continue for a period of 1 year. At the end of the 1 Year Term the Program license shall terminate automatically.

### ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Product Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at <http://www.oracle.com/Support>

#### Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

#### Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Updates License & Support is the technical support fees paid for the same licenses in the prior year, increased by the appropriate renewal adjustment. Oracle uses two different renewal adjustments: the Support Cap Rate (SCR) and the Local Renewal Adjustment (LRA). Support renewals for licenses sold under the old pricing model (generally prior to January 1, 2000), are renewed using the SCR. Support renewals for licenses sold under the current pricing model (generally on or after January 1, 2000) called e-Business licenses, are renewed using the LRA. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

#### Advanced Product Support

Advanced Product Support is designed to provide an enhanced level of support to Oracle customers. Advanced Product Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Product Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.

Contact your local Support Sales representative for Advanced Product Support information and pricing.

#### Incident Support

Incident Support is a web-based incident pack support model through which technical support is available in packages of 10 incidents at a cost of 0 17,5. This service is available for the following products, across all platforms:

- Oracle Database Standard Edition
- Oracle Database Standard Edition
- Oracle Database Personal Edition
- Oracle Database Lite

Incident Server Support Packages provide incident-based web support for the following limited product sets:

- Oracle Database Server Support Package (5 17,5 for 10 incidents on one server):  
Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters
- Oracle Application Server Support Package (0 17,5 for 10 incidents on one server):  
Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Support and Incident Server Support Packages, customers receive access to Oracle *MetaLink*, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

#### Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at <http://www.oracle.com/support>

#### Extended Maintenance Support (EMS)

Customers with current Software Updates–License & Support or Incident Server Support Packages, can purchase EMS for certain Oracle programs after they are desupported. EMS may only be sold to customers who already have the applicable release at the time their support is renewed and may not be sold with new licenses. EMS fees are applied to the desupported Oracle programs only. EMS fees for most products consist of the prior year's fee for Software Updates & Support or Incident Server Support Packages plus the applicable renewal adjustment uplifted by 30% [Prior Year's fee\*(1+Applicable Renewal Adjustment)\*130%].

### ORACLE ON DEMAND

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

#### Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted Customers purchasing On Demand for either E-Business Suite or Technology Online must meet the minimum annual net fees for Administration Services of and minimum monthly net fees of . Customers purchas

#### **Computer and Administration Services**

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.

Customers purchasing On Demand for either E-Business Suite or Technology Online must meet the minimum annual net fees for Computer and Administration Services of 55613 Germany (Euro), and minimum monthly net fees of 4634 Germany (Euro). Customers purchasing On Demand for both E-Business Suite and Technology Online must meet the minimum annual net fees for Computer and Administration Services of 111226 Germany (Euro) and minimum monthly net fees of 9269 Germany (Euro). Prices shown on this price list are monthly fees and apply to both perpetual and term licenses.
