

Data Sheet

Fujitsu Storage CS800 RA PL based on FUJITSU Server PRIMERGY

Together against ransomware

Data Protection Portfolio

Data protection appliances and solutions from Fujitsu ensure data protection and 'always-on' availability across your hybrid cloud estate. Fujitsu's comprehensive range of backup and archiving solutions safeguard the right data service levels for the complete data lifecycle with the right protection and at optimized cost. The appliances protect sensitive data from threat, corruption, or loss addressing end-to-end operational security and data availability concerns from on-premises through to the cloud. The speedy recovery after downtime or ransomware attacks provides 24/7 business continuity, ensures highest data resiliency, and enhance your business agility. The solutions comply with security, data, and industry regulations and transform your hybrid cloud into a genuine enabler for digital business growth, efficiency, and continuity.

CS800RA PL based on FUJITSU Server PRIMERGY

Fujitsu CS800 Reference Architecture PL based on FUJITSU Server PRIMERGY is a virtual disk based backup system which offers simple, economical and scalable data protection with high performance backup and efficient disaster recovery and tight integration with all leading backup applications. The deduplication technology in CS800RA PL reduces required disk capacity by up to 95% delivering superior price-performance while the unique replication engine enables multi-site protection and disaster recovery with low network bandwidth. The scale-out architecture makes it suitable for entry level to enterprise class environments with the pay-as-you-grow expansion flexibility. By supporting all major backup suites it is a perfect consolidation platform for data copies. Deep integration capabilities for VEEAM Data Mover Service enables a tight integration into backup processes including additional copies on tape eliminating the need of extra hardware resulting in investment protection.

Features & Benefits

Main Features	Benefits
Flexible reference architecture for small and remote offices to enterprise environments	<ul style="list-style-type: none"> ■ Pay-as-you-grow with easy incremental upgrades ■ Scalability from 5 up to 160 TB ■ Suitable for organization size from entry to midsize
High performance while reducing costs	<ul style="list-style-type: none"> ■ Meta data stored on SSDs for better data protection performance ■ Variable-length deduplication maximizes data reduction ■ Protect data across sites with WAN efficient replication
Optimized data protection and automated disaster recovery	<ul style="list-style-type: none"> ■ 1:2 replication and cloud hosted disaster recovery ■ Reduced media handling and easy administration ■ Tight integration with Veeam Data Mover Service (VDMS) ■ Anti ransomware protection based on Secure Snapshot technology included
Greater insights to the data through advanced reporting	<ul style="list-style-type: none"> ■ Advanced reporting provides clarity and ease of application management ■ Intuitive management tools enable precise business decisions ■ Contributes to proactive and speed resolution time
Integration into Business-centric Data-centers	<ul style="list-style-type: none"> ■ Turnkey solution for easy and economical deployment ■ Standard NAS protocol interface for easy implementation ■ Ready to realize cloud concepts for backup service

Technical details

General system information

	Type Mini	Type Small	Type Medium	Type Large	Type Premium
Physical capacity [TB]	5	32	96	160	60
Logical capacity [TB]	5	5+	10+	20+	15+
ETH 1 Gbit/s baseT [per 1 piece]	4: 1x4	4: 1 x 4	4: 1 x 4	4: 1 x 4	4: 1 x 4
ETH 10 Gbit/s SFP+/LC [per 1 piece]	n/a	4: 2 x 2	4: 2 x 2	n/a	4: 2 x 2
ETH 25 Gbit/s SFP+/LC [per 1 piece]	n/a	n/a	n/a	4: 2 x 2	n/a
HW Mgmt Port	1 x dedicated management LAN port for iRMC S6 (10/100/1000 Mbit/s) GbE				
Supported protocols	CIFS, NFS, OST				
NAS Shares (max.)	128				

Supported environments - excerpt

Supported Environments	Microsoft Windows 2022 Server
Supported backup and archiving software for open systems	Atempo Time Navigator AISHU Technology AnyBackup Acronis Cyber Protect (CIFS/SMB only) Arcserve Arcserve Backup Bacula Systems Bacula Enterprise HYCU Protégé Dell NetWorker Micro Focus Data Protector IBM Storage Protect NovaStor NovaStor DataCenter Quest NetVault Retrospect Inc Retrospect for Windows Veritas (Backup Exec, NetBackup, System Recovery) Veeam Backup & Replication For the detailed support matrix please contact your Fujitsu sales representative

Installation specification

Base unit	PRIMERGY RX2540 M7
19" rackmount	Yes
Mounting Depth Rack	873.1 mm
Dimensions (W x D x H)	482.5 mm (Bezel) / 435 mm (Body) x 800 x 86.9 mm
Height Unit Rack	2 U (type Mini is Tower/3U convertible unit)
Weight	Max 32 kg
Power supply	900W hot-plug, 96% (Titanium efficiency), 200-240V, 50 / 60Hz (type Mini – 500W modular Titanium efficiency power supply) Power consumption
Power consumption	+/- 650 W

Environment

Maximum Heat Generation	2500: kJ/h
Temperature (operating)	5 – 30 °C
Humidity (operating)	8 - 85 % (relative humidity, non-condensing)
Sound pressure (LpAm)	39.3 dB(A) (idle) / 41.9 dB(A) (operating) typical Values
Sound power (LWAd; 1B = 10dB)	5.3 B (idle) / 5.6 B (operating) typical Values
Noise emission	Measured according to ISO 7779 and declared according to ISO 9296
Noise notes	Noise emissions depends on operation modes, system configuration and ambient temperature.

Environment

Operating environment	FTS 04230 – Guideline for Data Center (installation specification)
Operating environment link	http://docs.ts.fujitsu.com/dl.aspx?id=e4813edf-4a27-461a-8184-983092c12dbe

Warranty

Warranty period	3 years
Warranty type	Onsite warranty
Warranty Terms & Conditions	www.fujitsu.com/warranty

Product Support - the perfect extension

Recommended Service	5x9 or 24 x 7 Fujitsu support for enterprise class services. Please check your specific service level with your FUJITSU sales organization or partner.
---------------------	---

Service Lifecycle	at least 5 years after shipment, for details see https://support.ts.fujitsu.com/
Service Weblink	www.fujitsu.com/services/product-services

Compliance

Product safety	CB, RoHS (Substance limitations in accordance with global RoHS regulations), WEEE (Waste electrical and electronical equipment), GS (Germany), CE (Europe)
Compliance link	https://sp.ts.fujitsu.com/sites/certificates

Notes

Compatibility	If and to the extent a list of components or certain compatibilities are specified in the product data sheet, these component lists and compatibility specifications are exhaustive. Using deviating or other system components and applications together with the product may but does not necessarily have to lead to compatibility problems. A final statement and/or commitment on the compatibility of such deviating or other system components and applications can only be provided after a corresponding verification through a dedicated compatibility testing.
Security	The properties of the product provide a baseline for product security and therefore end-customer IT security. However, these properties are not sufficient on their own to protect the product from all existing threats, such as intrusion attempts, data exfiltration and other forms of cyberattacks. To customize security settings, please use the configuration options as available for the respective product. During operation, the IT security of this product is within the responsibility of the respective administrator/end-user of the product. Please note, that Fujitsu as a manufacturer does not make any policy prescriptions or advocacy statements regarding IT security best practices and/or general product operation.
Continuity management	The product may in connection with and depending on the specific configuration include elements to support time- and performance-critical applications, however high availability (e.g., 99.9999%) and failsafe performance is not a standalone product feature. If and to the extent the product is to be used in such business-critical environments, it is within the sole responsibility of the user to set up the specific additional technical features (e.g., Storage Cluster), redundancies, and operational conditions as required to ensure such high availability or failsafe performance.
Software	Use of certified or supported operating systems and virtualization software is subject to proactive acceptance of the respective License Agreements/ EULAs/ Subscription and support terms of the Software manufacturer as applicable for the relevant Software whether preinstalled or optional. The software may only be available bundled with a software support subscription which – depending on the Software - may be subject to separate remuneration. Use of accompanying and/or additional Software is subject to proactive acceptance of the respective License Agreements /EULAs/ Subscription and support terms of the Software manufacturer as applicable for the relevant Software whether preinstalled or optional. The software may only be available bundled with a software support

Fujitsu products, solutions & services

In addition to Fujitsu CS800 Reference Architecture based on FUJITSU Server PRIMERGY, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

Fujitsu Portfolio

Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation's reliability.
