

SG Series Customers Only: Sophos Firewall and XGS Offer

Buy a 3-year Xstream Protection subscription, get 100% discount on an XGS Series and a 3-year subscription Web Server Protection for free plus 40% off Central Email Advanced

[Valid until March 31, 2022]

If your SG Series customers are looking for the right time to switch to Sophos Firewall and the XGS Series, that time is now. This exclusive offer provides an unbeatable incentive, with 100% discount on an XGS Series hardware appliance plus 100% discount on a 3-year subscriptions of Web Server Protection and 40% discount on Central Email Advanced, when ordered with a minimum 3-year term of Xstream Protection. Up to 4h of Migration Desk Support is also available, if required.

This offer is valid for Xstream Protection renewals only [Central Email Advanced is also eligible as a first time purchase for existing SG customers].

THE BENEFITS:

- **Powerful Protection and Performance:** Sophos Firewall and the XGS Series provide a significant performance boost over all previous firewall models. The Xstream architecture accelerates important cloud, SaaS and other trusted traffic to free up resources on the main CPU for important deep packet inspection and TLS decryption for the traffic that needs it.
- **The Next Generation:** Sophos Firewall OS already offers many features not available in Sophos UTM today and has an exciting roadmap for SD-WAN, more advanced offloading using the Xstream Flow Processor in the XGS Series, and much more.
- **More than a Firewall:** The ultimate cloud management platform, Sophos Central, opens up a complete ecosystem of possibilities, not only for the central management and reporting for one or more firewalls, but also for email protection and all other Sophos security solutions. This allows further integration with other products for cross-product threat intelligence and analysis.
- **Xstream Protection:** A single license bundle for advanced protection with Network, Web and Zero-Day Protection plus the new Central Orchestration module for SD-WAN VPN orchestration* and a 30-day Central Reporting Advanced data retention period.
