

SG/XG Firewall Hardware Refresh Offer

For existing Sophos SG and XG Firewall customers.

Customers enjoy a one-off saving on their new SG or XG Series appliance when they refresh their hardware with a new model of the same or higher type.

The offer is only available when upgrading from an SG to an XG Series appliance, from an XG to an XG Series appliance or from an SG to an SG Series appliance.

The saving is calculated based on the model of the appliance that is being traded in, **NOT** the model of the new appliance.

This offer is designed to make it easier and more attractive for customers to refresh their Sophos SG and XG Series hardware appliances. Upgrading to a new appliance enables customers to take advantage of the broader functionality in the latest software releases and the many enhancements in the latest appliances.

Offer valid to 31st March 2019.
