Fujitsu recommends Windows 10 Pro.

One Family – three User Profiles

With three different models, the LIFEBOOK U7 family with Intel® Core™ i7 processor is a perfect fit for the busy and varied working lives of users who move and work between multiple locations.

Always on the move, and need a notebook that’s slim, stylish and easy to carry?

→ LIFEBOOK U728

12.5-inch | 19mm thin | 1.11 kg

Need to strike the right balance between mobility for business trips and for all-day ergonomic working?

→ LIFEBOOK U748

14.0-inch | 19mm thin | 1.49 kg

Prefer a bigger screen to display multiple windows simultaneously, or to work more effectively on apps such as spreadsheets?

→ LIFEBOOK U758

15.6-inch | 19mm thin | 1.74 kg

shaping tomorrow with you
Meeting the Modern Workplace Challenge

With the FUJITSU LIFEBOOK U7x8 family of notebooks, you can chart an effective course for your workplace IT in a hyper-connected world, meeting both corporate requirements on security and management, as well as providing users with a sleek, cool device that’s ideal for workspace sharing.

One desk – multiple workplaces

Desk sharing enables companies and their staff to use office space more flexibly and collaborate more effectively. The LIFEBOOK U7, with its choice of two port replicators, keeps desks tidy and free of cable clutter, and ensures people can get straight to work. Choose between a classic port replicator that is shareable across the family and LIFEBOOK E5 series, or a USB Type C port replicator as a single-cable solution.

The notebook to raise your data security

Security regularly ranks high on the list of concerns of IT managers, who must deal with threats from viruses, fraud and theft, as well as risk exposure through the use of weak passwords. With a choice of palm vein authentication, fingerprint scanner or SmartCard reader, the LIFEBOOK U7 family improves security and keeps handling easy.
Standout Benefits of the LIFEBOOK U7

The new LIFEBOOK U7 family with Intel® Core™ i7 processor strikes the perfect balance between the needs of technology decision makers and business end-users.

- **Hinge Design**
  Aluminum-caged hinges to better reflect durability and reliability
