

Cisco Security:

Protecting what's now and what's next

Lauri Makke
Country Lead
17.Oct 2019

Business demands a lot from security teams

Digital transformation

Workforce mobility

Risk management

Compliance

Cloud adoption

Application workloads

Global scale

You're doing your best to keep up, but it's a never-ending grind

Active adversaries

Business risks

Security risks

New regulations

Board mandates

Talent shortage

Cost containment

The security industry isn't making it any easier

3000+

Cybersecurity vendors globally

75

Average security tools per enterprise environment

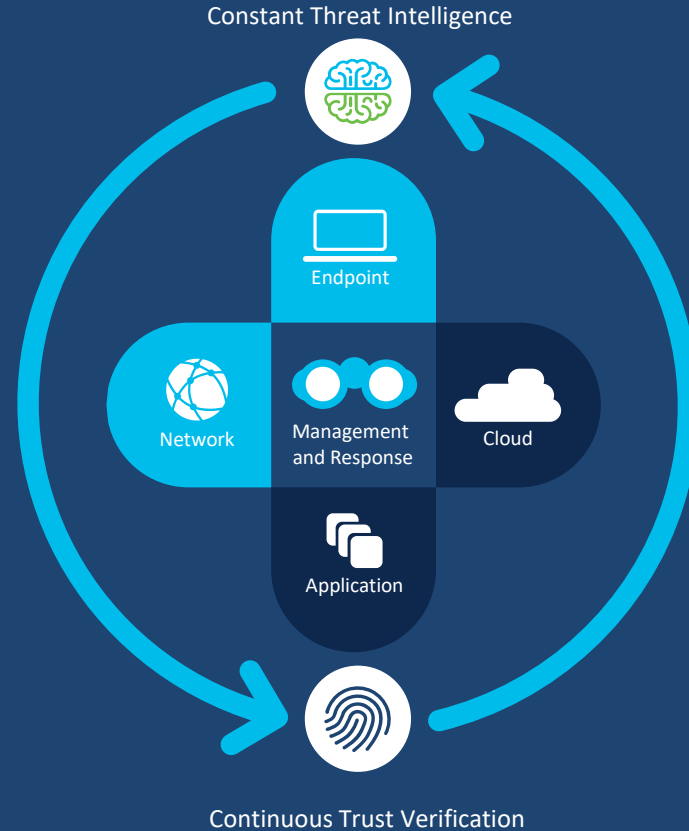

91%

Of security leaders think integration is a significant challenge

A rowing team of four men is shown in a boat on a body of water. They are wearing white caps and blue long-sleeved shirts with red accents. The rowers are in a synchronized rowing motion, with their oars dipping into the water. The oars are black with yellow and blue accents, and the brand name 'concept 2' is visible on them. The background is a soft-focus view of the water and distant land. The text 'Isn't it time for security solutions to act as a team?' is overlaid in white, centered on the image.

Isn't it time for security solutions to act
as a team?

A photograph of two women in a professional setting. The woman on the left has long brown hair and is wearing a maroon polka-dot shirt, looking down at a notepad. The woman on the right has curly dark hair and is wearing a blue blazer over a white shirt, looking towards the camera with a slight smile. They are sitting at a desk with a laptop and a telephone. A dark blue banner with white text is overlaid on the bottom left.
