NoSpamProxy is Champion in User survey

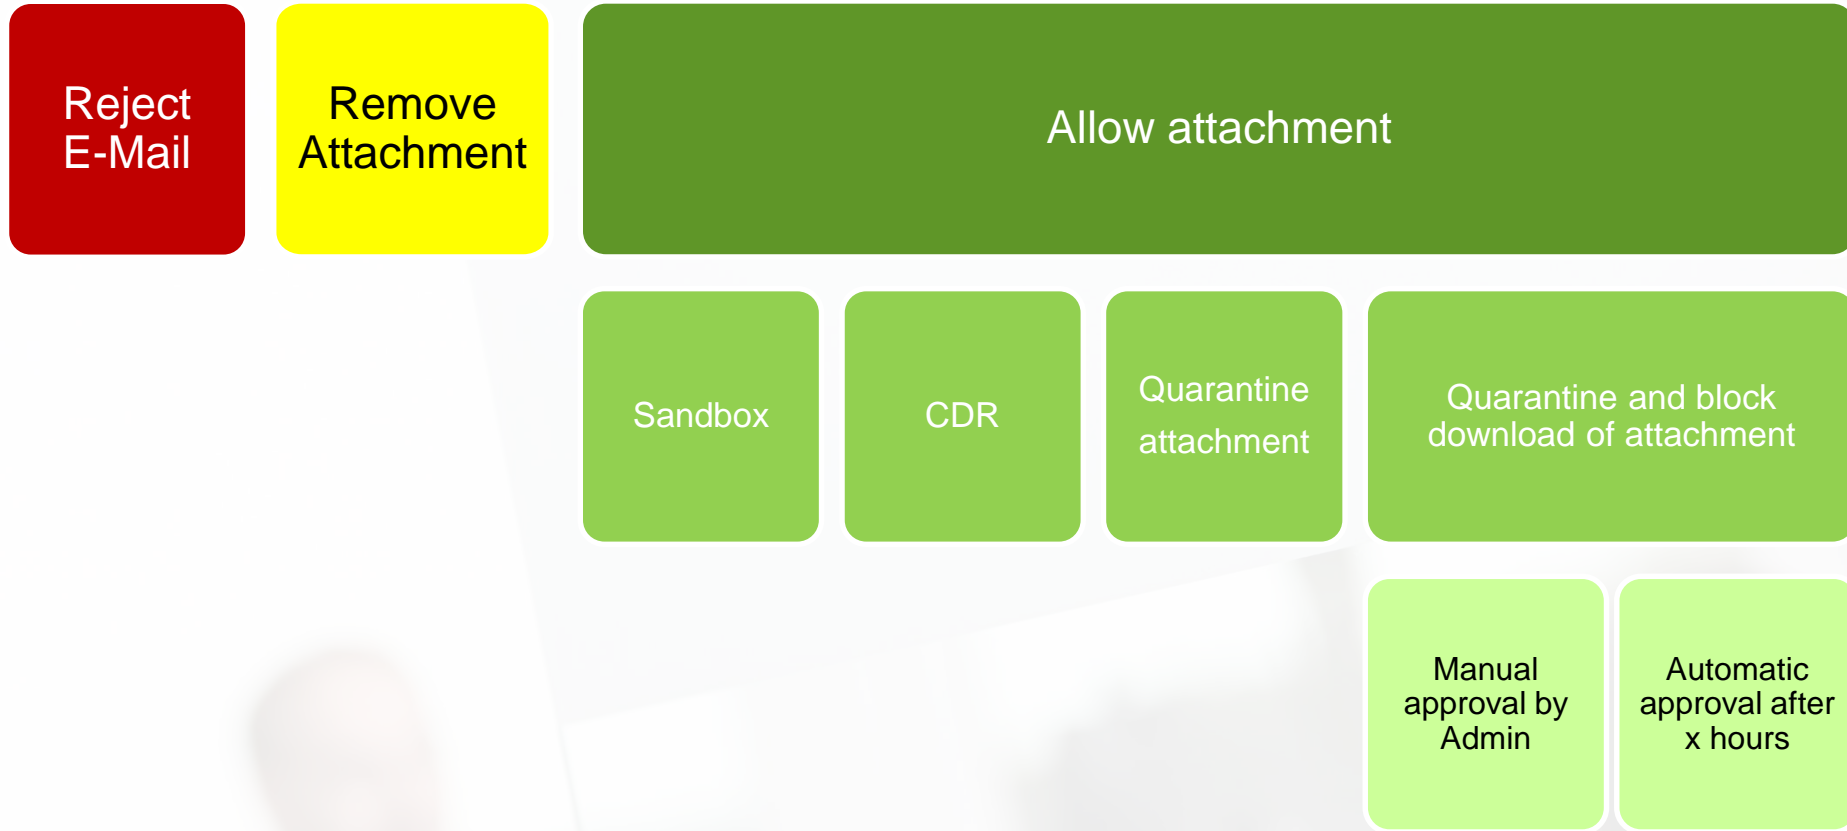

Highlights: Protection

- No quarantine - NoSpamProxy directly rejects a malicious email and does not even accept it.
- Level of Trust – Gateway learns continuously.
- In depth Sender reputation (SPF, DKIM und DMARC and more)
- Smart Attachment management / Content Disarm and Reconstruction (CDR)
- URL-Safeguard

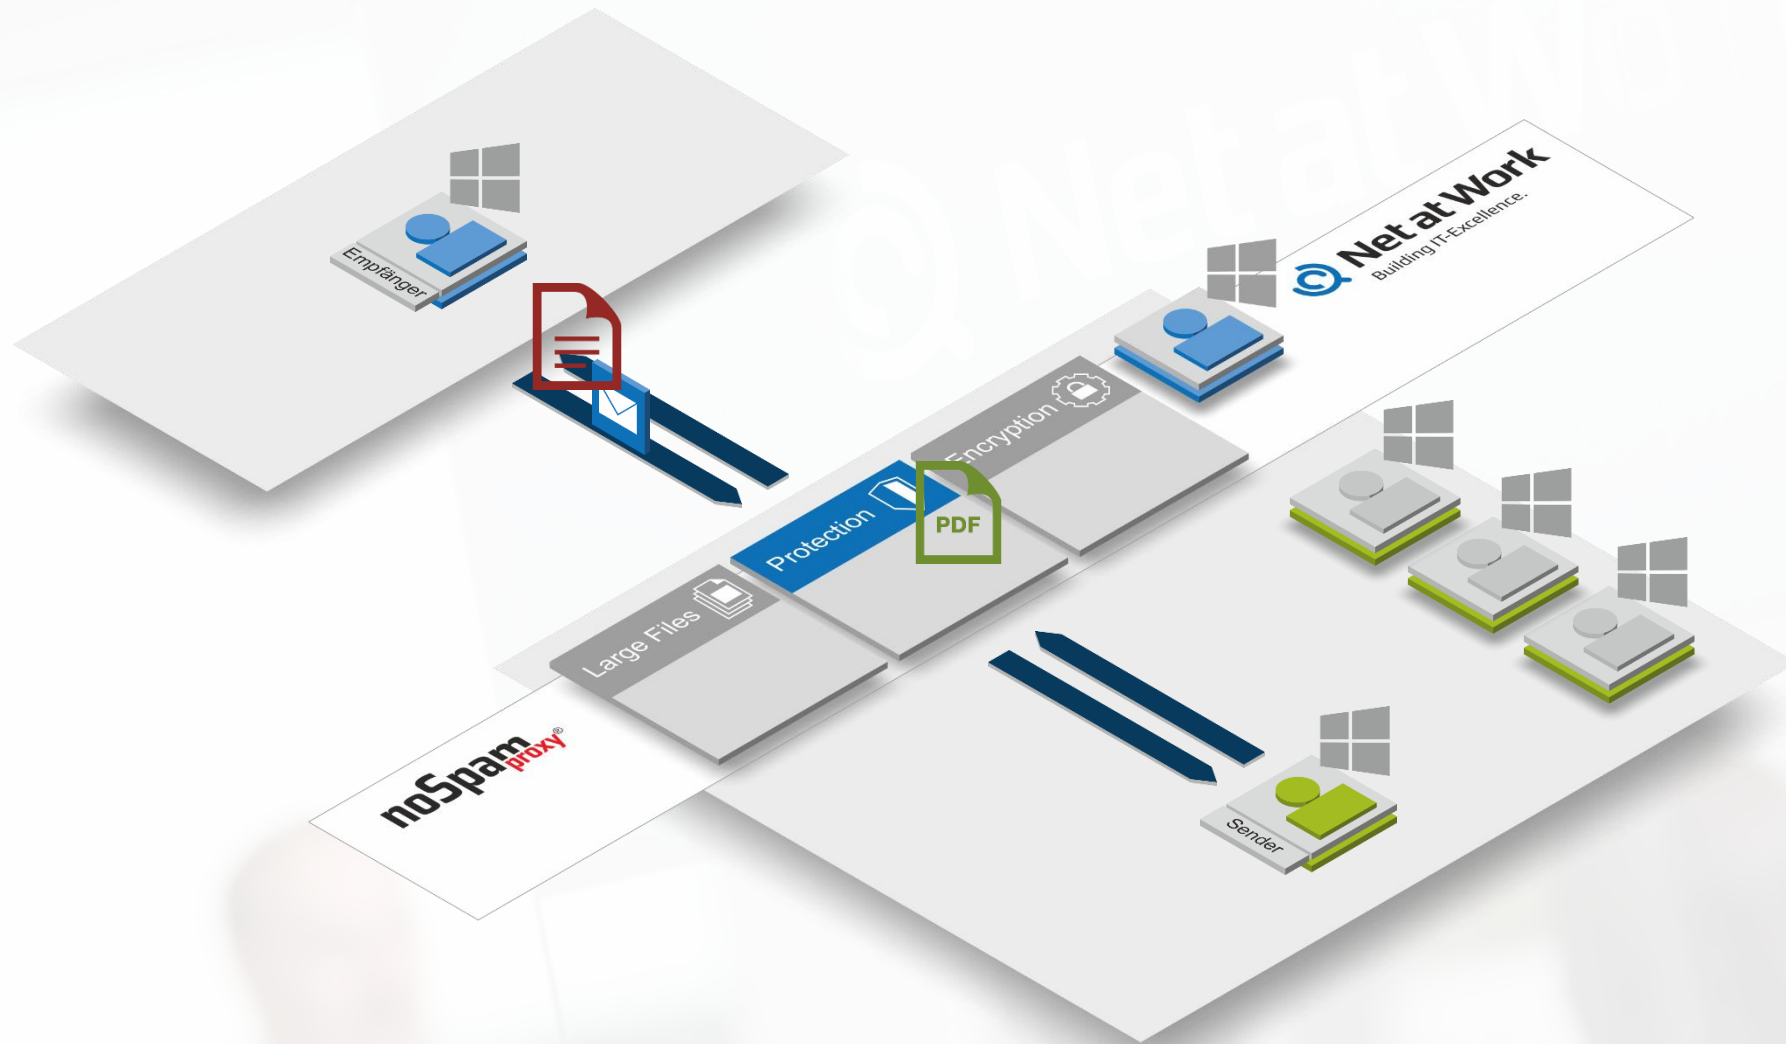

The possibilities you have

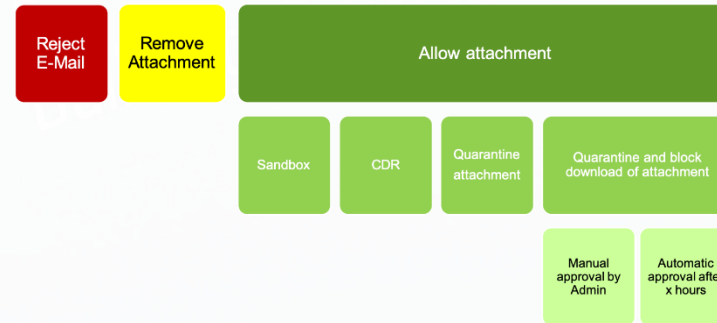

An X-ray image of a human foot and ankle, viewed from the front (anteroposterior view). The image shows the skeletal structure, including the metatarsals, phalanges, and tarsals. A prominent feature is a large, bright, white, rounded object implanted in the ankle joint, which is a total ankle replacement. The text "Content Disarm and Reconstruction" is overlaid in white on the right side of the image.

Content Disarm and Reconstruction

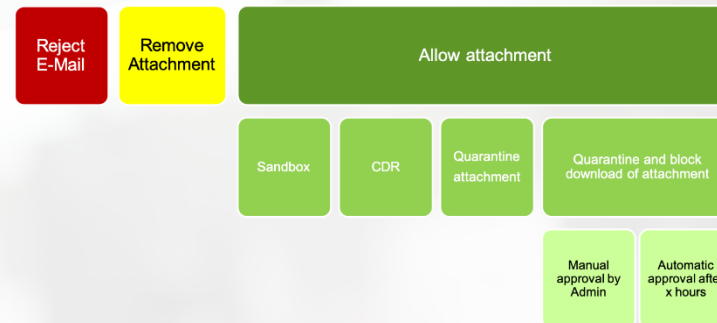

CDR: How does it work?

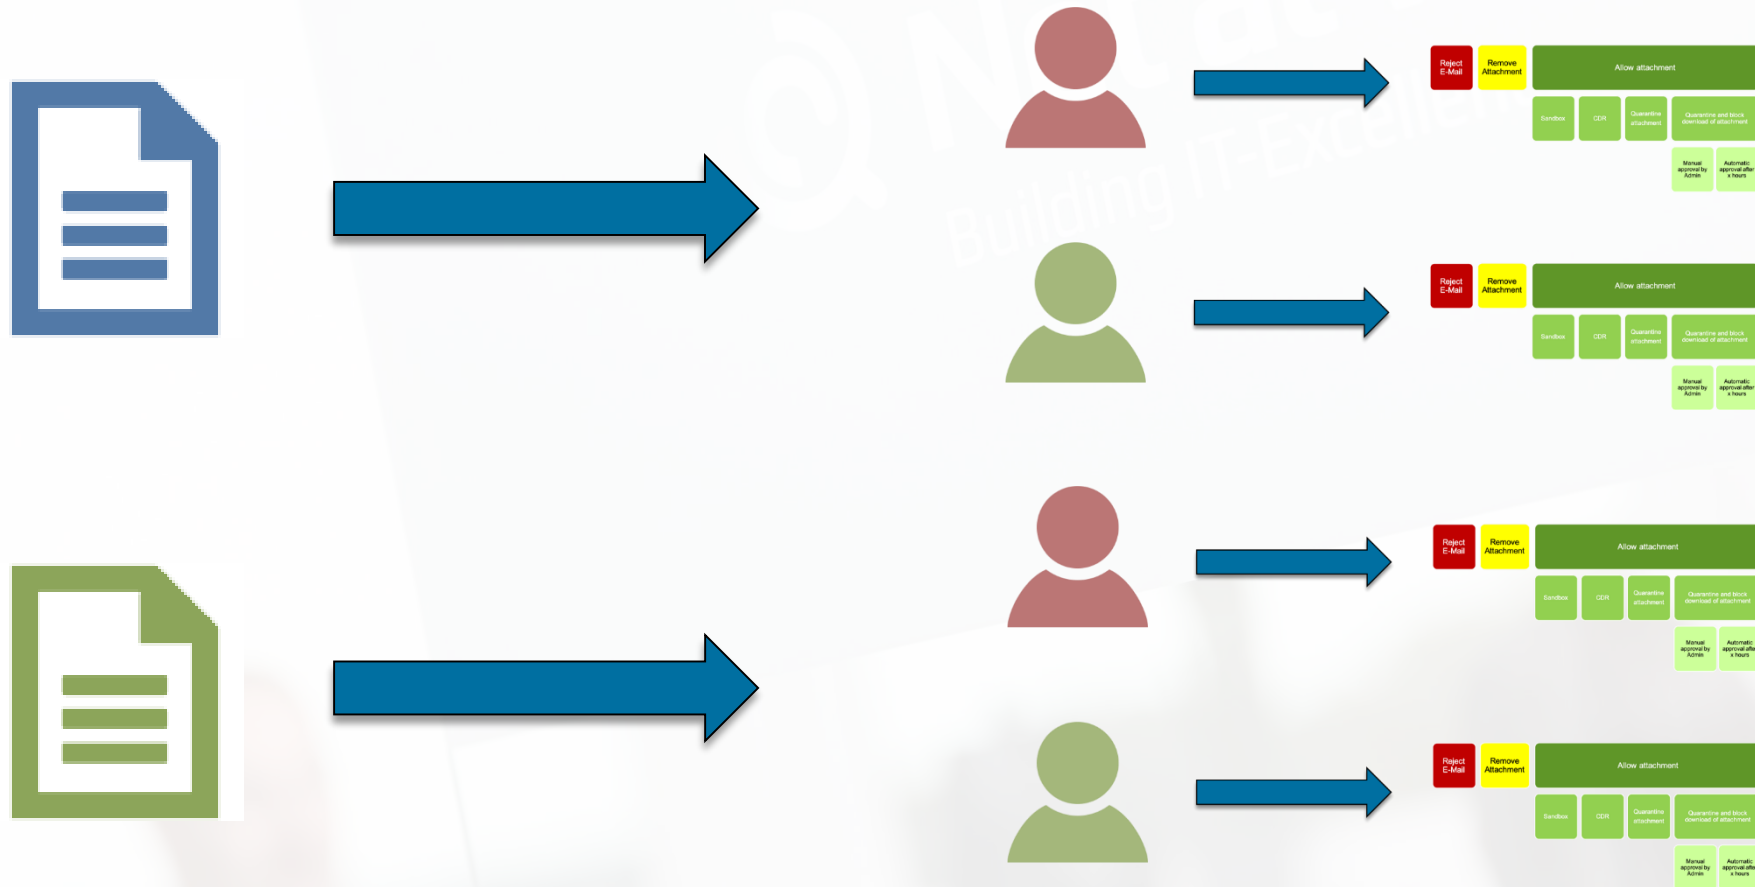

The possibilities

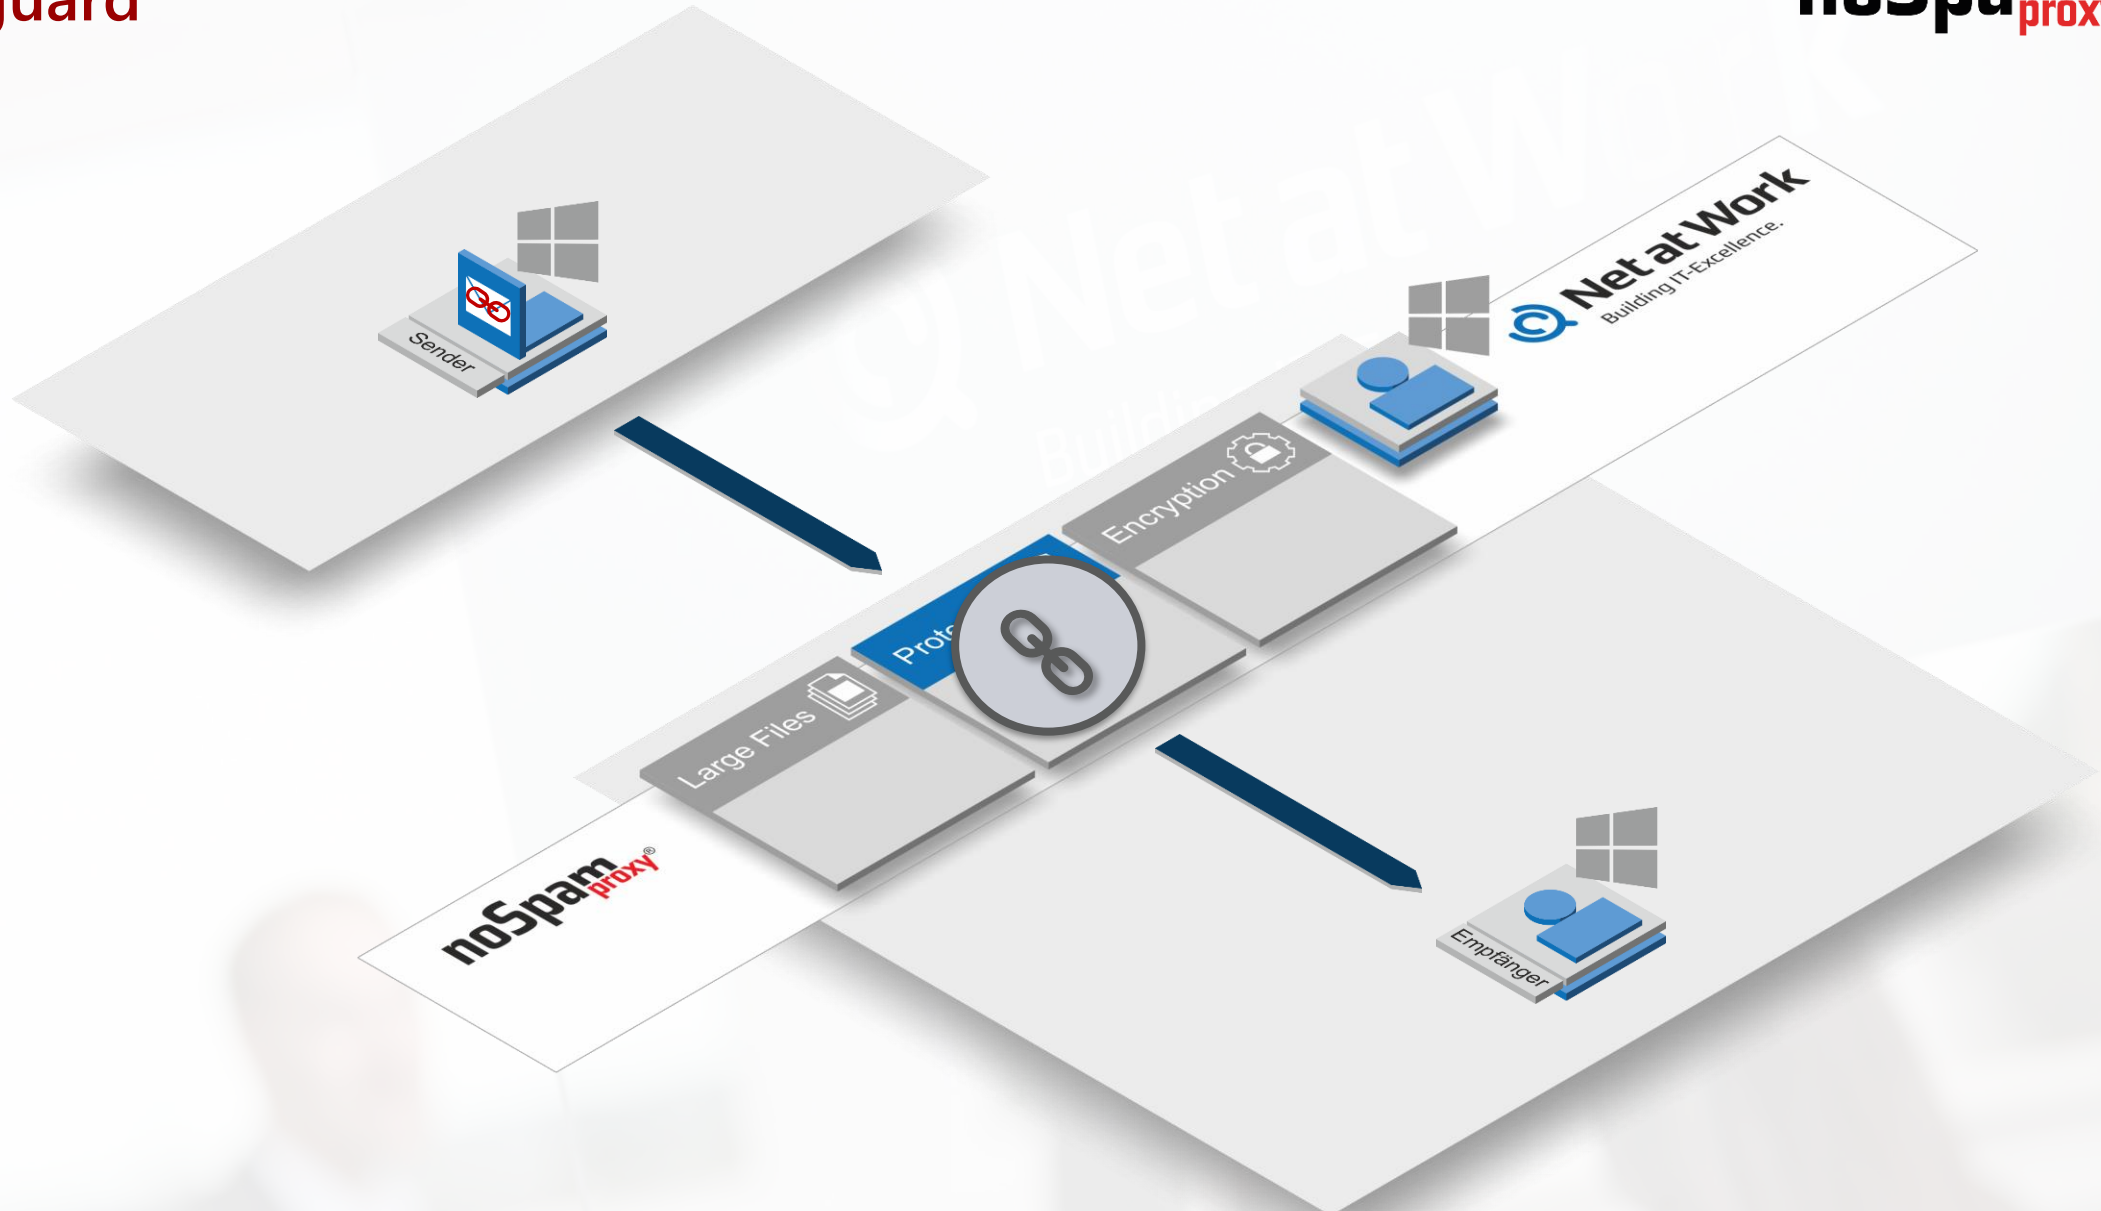

- ✓ SPF
- ✓ DKIM
- ✓ DMARC
- ✓ S/MIME

The possibilities

URL Safeguard

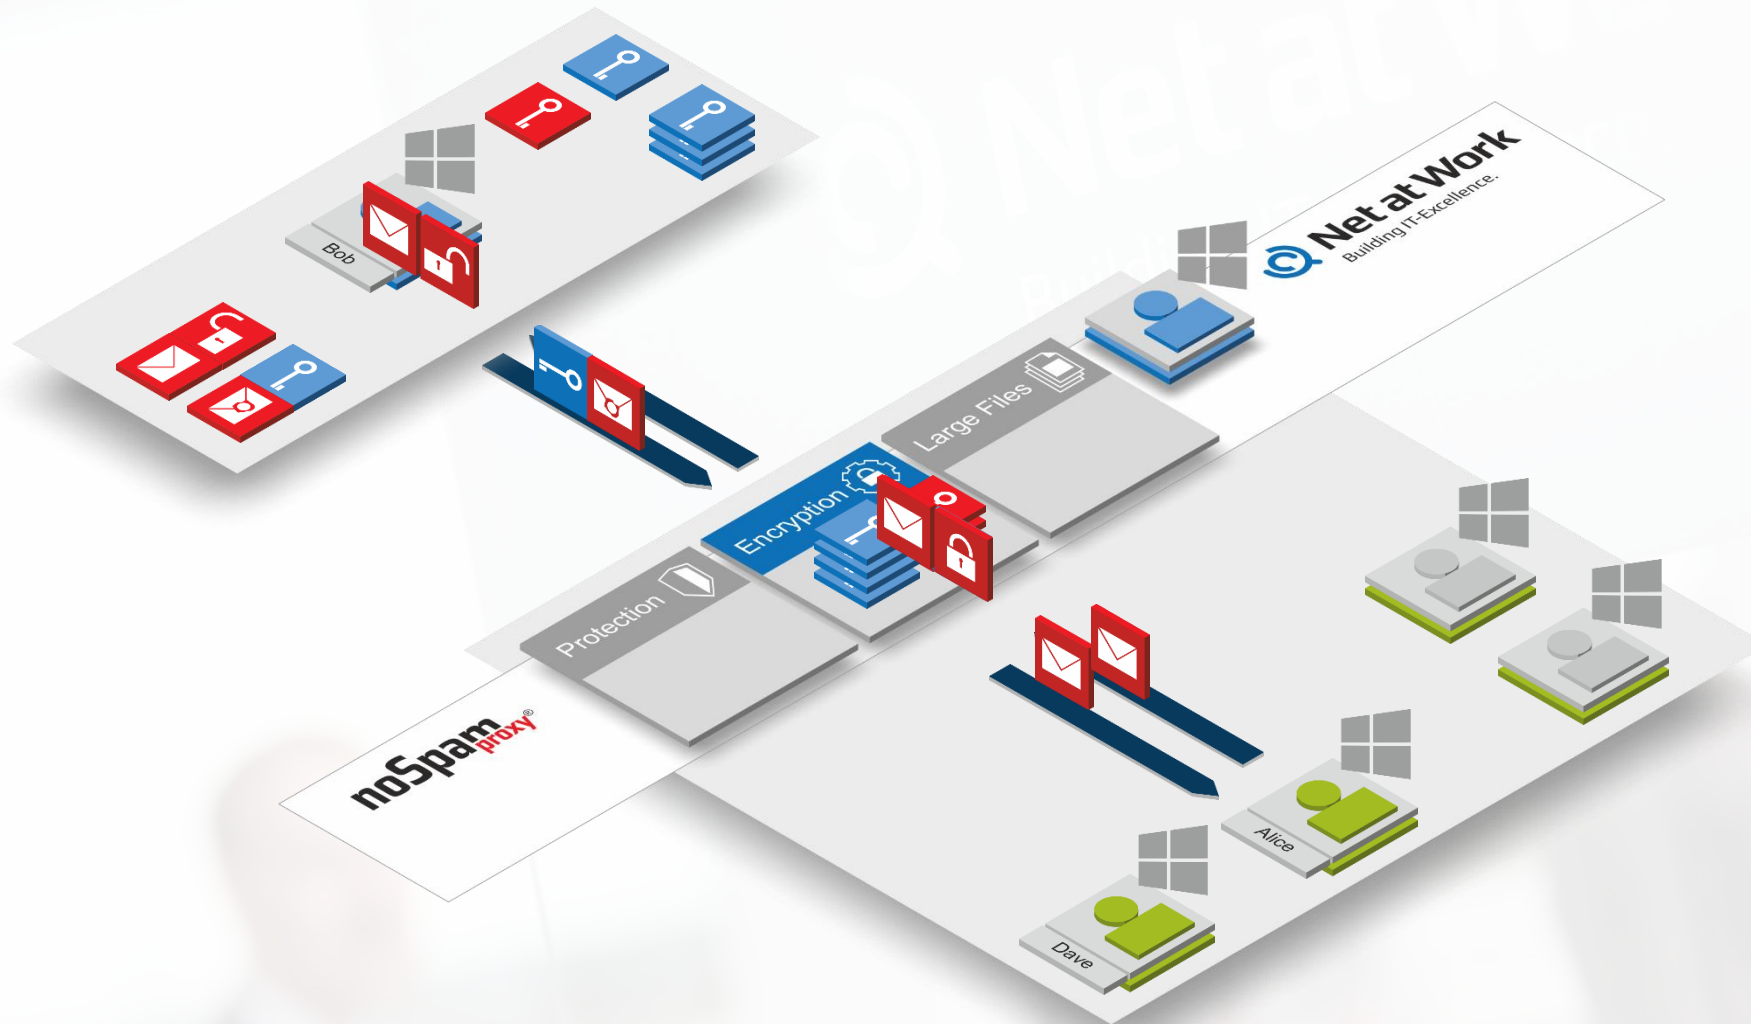

Highlights: Encryption

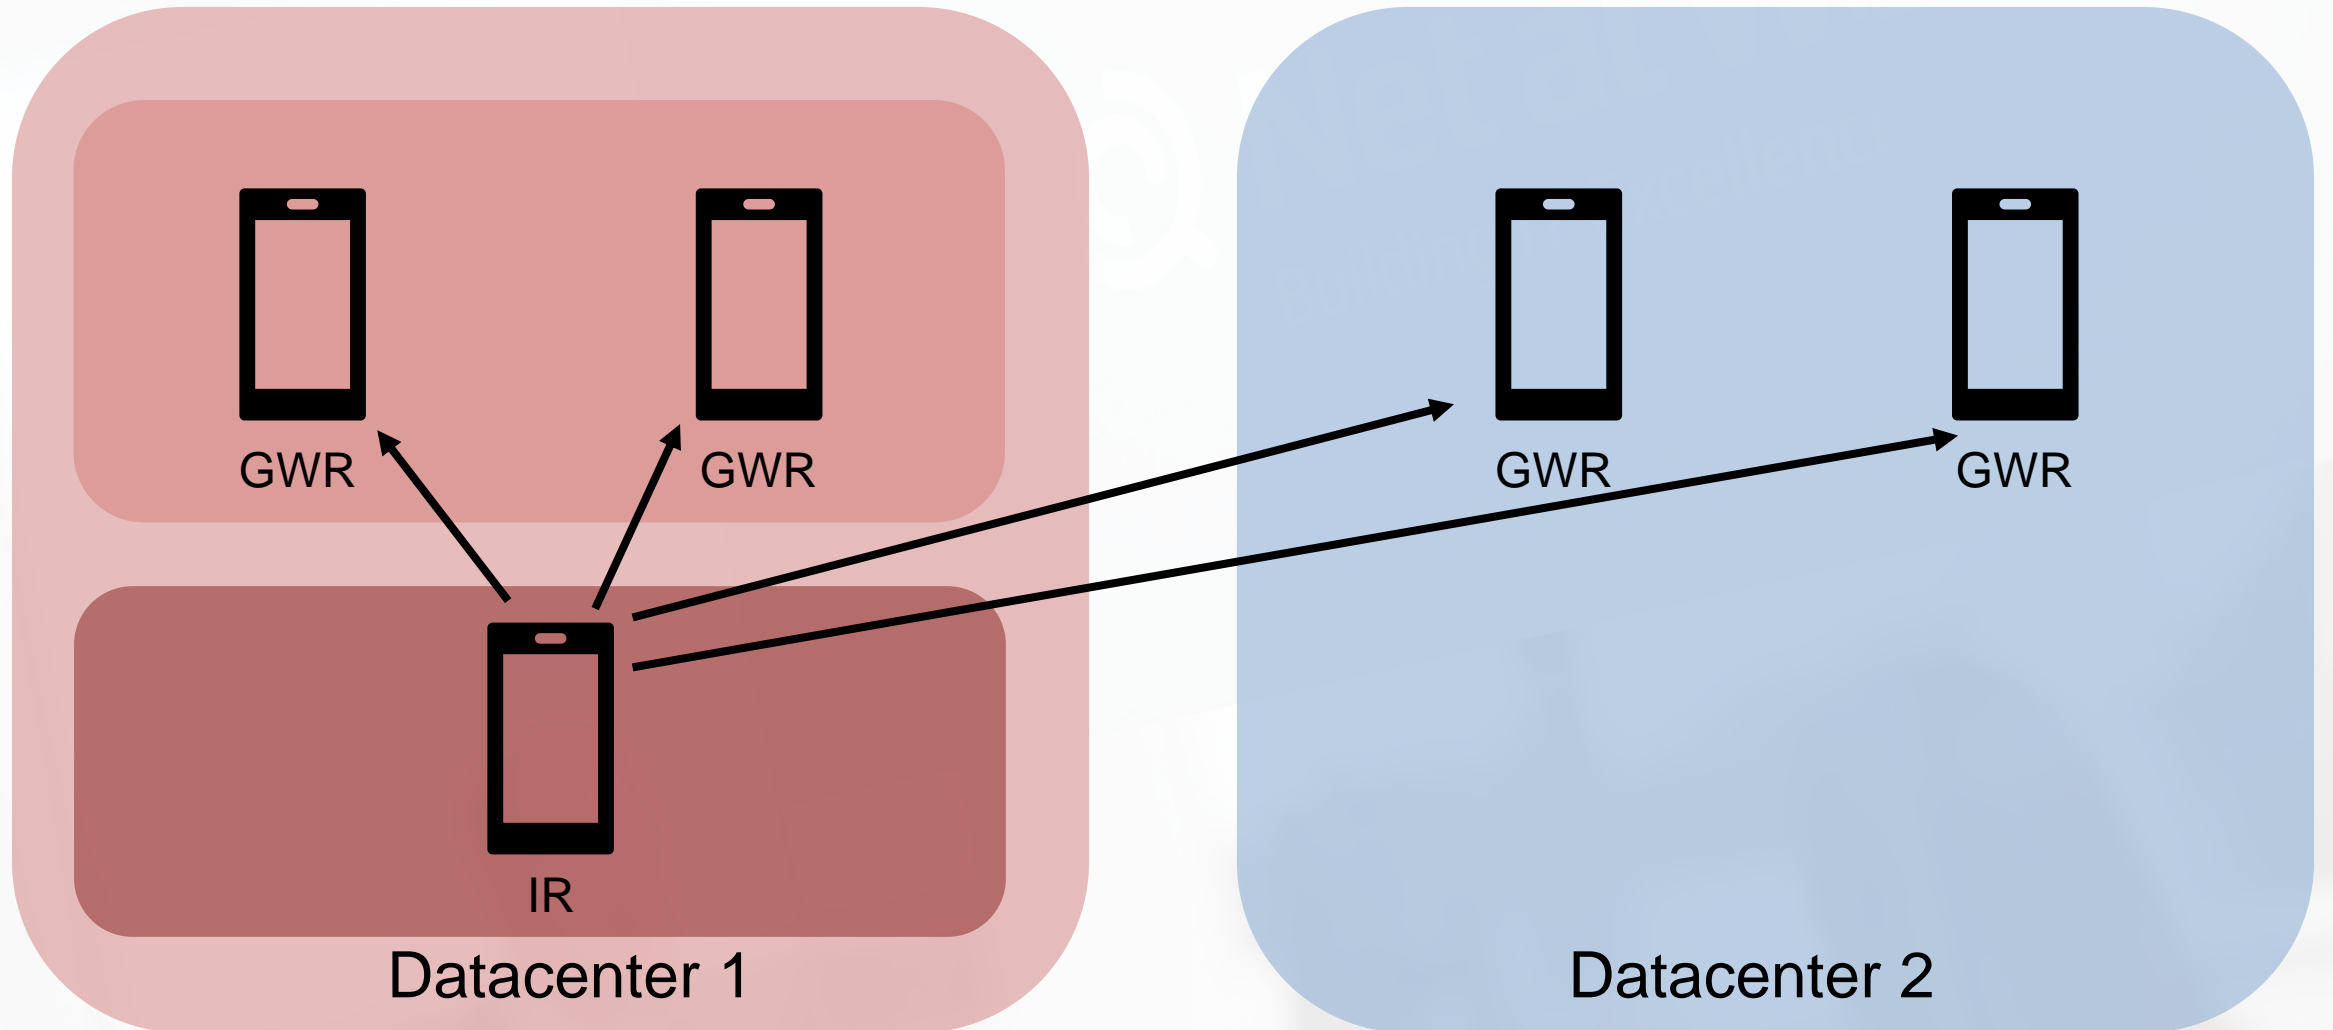

- Automated certificate management for E-Mail encryption
- S/MIME & PGP encryption
- Gateway-side encryption
- PDF Mail - feature with reply links

Gateway-side encryption

Flexible design

Täna teid aja eest!
