EliteBook 700 G5

Ultra slim notebooks designed for the growing business with the features of Elite at Pro prices

Why HP

- Elite design and performance with **NEW collaboration features**
- **Enterprise security and manageability** at a great value (with AMD processor).
- **Multiple docking options** supporting mechanical-based and USB-C™ connectivity.

Why transition

- **New collaboration keys** for quick and easy interaction on conference calls
- **Increased productivity** through mechanical docking and single cable USB-C™ connectivity.
- **Flexible docking options** to support legacy and USB-C™ connectivity for a 1:1 or 1:many user scenarios.

UltraSlim Dock

Dedicated workspaces (1:1)

Huge installed base and cross-compatibility, no USB-driven peripherals (NIC, graphics, audio) with no drivers

Mechanical dock only compatible with specific HP models

USB-C™ Dock G4

Dedicated workspaces (1:1)

Pass-through video, least expensive, dock/charge with single USB-C™ cable, network manageability, powers NB without opening lid

Only works on PC's with DP over USB-C™ alt mode

USB-C™ Universal Dock

Shared workspaces (1:many)

Universal dock can be used on virtually any notebook, dual 4k or single 5k display, network manageability

All features driven by USB (NIC, DisplayLink, audio) requiring drivers

Thunderbolt™ Dock 120W G2

Dedicated workspaces (1:1),
Shared workspaces (1:many)

Maximum performance docking for the future. Connect to any notebook with USB-C™ Alt-mode or TB. Ultra-fast speeds, high video resolution and network manageability
