Supports USB-C™ (data only)

EliteBook 800 G4

No Compromise. Distinct business PCs with proven corporate and enterprise technologies, security and management features

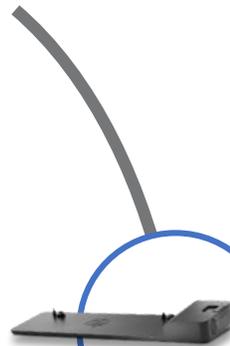

Why HP

- Elite design with **enterprise-grade security and manageability** in a **high-performance thin-and-light** design.
- **Flexible docking options** to support **legacy and USB-C™ connectivity** for a 1:1 or 1:many user scenarios.

Why transition

- Today's Elite PC that **works with installed base** of mechanical docks to **lower total cost of ownership across your fleet**.
- As the technology in your fleet evolves, the USB-C™ Universal dock + USB-C™ A Adapter offers **universal enterprise docking** designed to industry USB-C™ specs, **enables compatibility with HP and non-HP PCs**.

UltraSlim Dock

Dedicated workspaces (1:1)

Huge installed base and cross-compatibility, no USB-driven peripherals (NIC, graphics, audio) with no drivers

Mechanical dock only compatible with specific HP models

USB-C™ Universal Dock + USB-C™ to A Adapter

Shared workspaces (1:many)

Universal dock can be used on virtually any notebook, dual 4k or single 5k display, network manageability

Requires both USB-A and power to be plugged in. All features driven by USB (NIC, DisplayLink, audio) requiring drivers
