EliteBook 800 G5

No Compromise. Distinct business PCs with proven corporate and enterprise technologies, security and management features

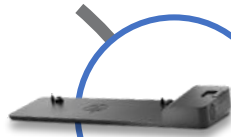

Why HP

- Enterprise-grade security and manageability in a high-performance thin-and-light design.
- NEW collaboration features
- Provides the largest number of docking options including Mechanical, Thunderbolt™ and USB-C™ technologies.

Why transition

- Premium design elements in a mainstream PC, built for the enterprise fleet and mobile professionals.
- New collaboration keys for quick and easy interaction on conference calls
- Benefit from the most advanced and fastest docking solution available (Thunderbolt™ 3) while maintaining compatibility with USB-C™ and mechanical docking solutions.

UltraSlim Dock

Dedicated workspaces (1:1)

Huge installed base and cross-compatibility, no USB-driven peripherals (NIC, graphics, audio) with no drivers

Mechanical dock only compatible with specific HP models

USB-C™ Dock G4

Dedicated workspaces (1:1)

Pass-through video, least expensive, dock/charge with single USB-C™ cable, network manageability, powers NB without opening lid

Only works on PC's with DP over USB-C™ alt mode

USB-C™ Universal Dock

Shared workspaces (1:many)

Universal dock can be used on virtually any notebook, dual 4k or single 5k display, network manageability

All features driven by USB (NIC, DisplayLink, audio) requiring drivers

Thunderbolt™ Dock 120W G2

Dedicated workspaces (1:1),
Shared workspaces (1:many)

Maximum performance docking for the future. Connect to any notebook with USB-C™ Alt-mode or TB. Ultra-fast speeds, high video resolution and network manageability
