

Letter to Shareholders

Half-Year 2005

Letter to Shareholders regarding the first half 2005

Hergiswil (Switzerland), August 11, 2005

Dear Shareholder

This half-yearly report provides you with information on the state of business and results for the first half of 2005 and on the outlook for the current year.

Market share gains in subdued demand

After three months of weak performance, the IT market stabilized during the second quarter. Demand in the consumer electronics sector was likewise subdued. Despite this, the ALSO Group increased sales by 9% to CHF 909.5 million (2004: CHF 838.1 million). After putting away reserves for non-recurring special costs amounting to CHF 2.9 million, operating profit stood at CHF 9.1 million (2005: CHF 15.6 million) and consolidated net profit at CHF 6.4 million (2004: 10.8 million). The equity ratio on June 30, 2005, was 49% (December 31, 2004: 42%). On balance sheet date, ALSO employed 574 persons (2004: 574).

Non-recurring special costs

In its half-yearly accounts, ALSO has made a provision for a legal disagreement with a supplier. This has had the effect of reducing operating profit (EBIT) by CHF 2.9 million and net income by CHF 2.3 million. At present, it can be assumed that no additional costs will be incurred.

Distribution Switzerland

The Swiss company consolidated its leading market position during the first half of 2005 even as subdued demand pushed sales down slightly by 8% to CHF 476.1 million (2004: CHF 518.3 million). The company also succeeded in largely offsetting the decline in prices in certain categories by switching the emphasis to higher-value products. As a result of lower sales and pressure on margins, operating profit was down on last year's figure. The company reported encouraging double-digit growth in its supply business, and logistics services operations remained at the same high level as the previous year.

Distribution Germany

Despite a virtually stagnant market, the German company reported a 36% increase in sales to CHF 433.4 million (2004: CHF 319.8 million). It widened its customer base and reported another substantial increase in market shares. At the same time, it achieved a considerably higher operating profit than the previous year.

ALSO anticipates net income of CHF 15 to 17 million for 2005

Assuming that the second half of the year follows the usual seasonality pattern and taking the provisions for the non-recurring special costs into account, ALSO – excluding unforeseen events – expects a net income of CHF 15 to 17 million for 2005.

Sincerely yours,

ALSO Holding AG

Thomas C. Weissmann
Chairman of the Board

Prof. Dr. Rudolf Marty Member of the Board

Notes to Consolidated Half-Yearly Financial Statements at June 30, 2005

General principles

These unaudited half-yearly financial statements to June 30, 2005, were drawn up in accordance with International Accounting Standard 34 on interim financial reporting.

Accounting and valuation principles

With the exception of the new regulations listed below, ALSO has used the same accounting and valuation principles in its half-yearly statements as in the Annual Report for 2004.

Since January 1, 2005, ALSO has applied all modifications from the IASB improvement project that are relevant to the Group. Appropriate reclassifications and revaluations have also been made for the periods with which figures are compared. This resulted in additional costs totalling CHF 0.3 million for the first half of last year. Essentially, the modifications apply to the following points:

- ▶ IFRS 2 (Share-based Payment) has a direct influence on ALSO's net income because the related costs have to be newly booked out of the employee stock purchase program. This involved an additional burden of CHF 0.2 million (previous year: CHF 0.3 million) on the income statement during the first half of the year.
- ▶ IFRS 3 (Business Combinations) is applied to all acquisitions with an agreement date after March 31, 2004. According to this standard, intangible assets that arise from contractual or other legal rights, or are separable from the business, and whose fair value can be measured reliably, can be deducted from goodwill (value added that has been paid for) and shown separately in the balance sheet. The remaining goodwill is no longer amortized but tested annually for impairment.
- ► Goodwill shown from earlier business combinations is not handled in accordance with IFRS 3 until financial 2005. This means scheduled depreciation does not take place and the sum of CHF 0.3 million does not affect the half-year results for June 30, 2005, compared with the previous year.
- On the strength of IFRS 5 (Non-current Assets Held for Sale and Discontinued Operations), the relevant items from the Systems Business division, which was sold with effect from February 5, 2004, have been reclassified in the income statement for the same period last year and summarized under results from discontinued operations.

▶ In order to obtain financing, the ALSO Group is selling its accounts receivable to an independent bank. The receivables sold so far have been deducted directly from the total. In keeping with the new regulations, these receivables will no longer be deducted from the total amount but shown gross. This also means that the advance financing will be shown under liabilities. The total assets at December 31, 2004, has therefore been retrospectively increased by CHF 50.1 million.

Essentially, all other adjustments affect reclassifications in the balance sheet and will have no material influence on Group equity or net income.

The half-yearly financial statements drawn up on the basis of IFRS contains assumptions and estimates that have an influence on the figures shown in this interim report. Actual results may vary from these estimates.

Consolidation scope

The interim financial report for June 30, 2005, contains no changes in the consolidation scope compared with December 31, 2004.

The Systems Business division was sold with effect from February 5, 2004. Reporting on primary segment is thus no longer relevant because there is now only one division, Distribution.

Discontinued operations

The ALSO Group sold its interest in the Systems Business division with effect from February 5, 2004. The proportionate loss arising from Systems Business in 2004 was offset by a profit from affiliated companies amounting to the same figure. The discontinued operation thus had no influence on net income 2004.

The following table shows the influence of the discontinued operations:

Discontinued Operations

Income statement (CHF 1000)	1st half 2004	2 nd half 2005
Total net sales	4 859	0
Operating expenses	-4 366	0
Operating profit	-490	0

Foreign currencies

Exchange rates for currencies with a bearing on the ALSO Group's operations moved as follows:

	Average rate	Average rate			
	1 st half 2004	1 st half 2005	30.06.04	31.12.04	30.06.05
EUR	1.55	1.54	1.53	1.54	1.55
USD	1.26	1.20	1.26	1.13	1.28

Financial liabilities

Financial liabilities remained unchanged compared with the financial statements at December 31, 2004, and comprise the following:

- ➤ 5,2% fixed advance, payable August 2, 2005, book value CHF 5 million.
- ► 4,6% certificate of indebtedness, 2003 bis 2008, book value EUR 25 million.

Dividend

In accordance with a resolution made by the General Meeting on March 15, 2005, the dividend for financial 2004 was CHF 7.00 per registered share (previous year CHF 5.00).

Non-recurring special costs

In its half yearly accounts, ALSO has made a provision for a legal disagreement with a supplier. This has had the effect of reducing operating profit (EBIT) by CHF 2.9 million and net income by CHF 2.3 million.

Contingent liabilities

There has been no significant change in contingent liabilities compared with December 31, 2004.

Events since balance sheet date

No events of any significance have occurred since balance sheet date.
