

PERFORMANCE & SECURITY TO HELP YOUR BUSINESS THRIVE

With up to the latest Intel® Core™ i 7th generation processor, combined with PCIe SSD & DDR4 memory - the Lenovo V310z is designed to boost your business productivity. Create and share files, stay on top of your emails, make presentations, conference your clients - you're fully connected and equipped with webcam and speakers. The Lenovo Companion APP makes managing your computer simple, so you can focus on what's important. Together with reassuring I/O security cover and Smart USB protection for your sensitive data, your V310z delivers ongoing productivity, simplicity and security - helping you drive your business forward.

WHY YOU SHOULD BUY THE LENOVO™ V310Z AIO

Powerful Performance

Make business-boosting productivity your first choice with up to the latest Intel® Core™ i 7th generation processor - together with PCIe SSD & DDR4 memory to power up in a flash, load files fast and avoid frustrating delays.

Enhanced Security

Your V310z stays physically safe with the I/O security cover and private camera lock. Combined with Smart USB Protection for preventing sensitive business data from leaking - you have the reassurance of optimized security features.

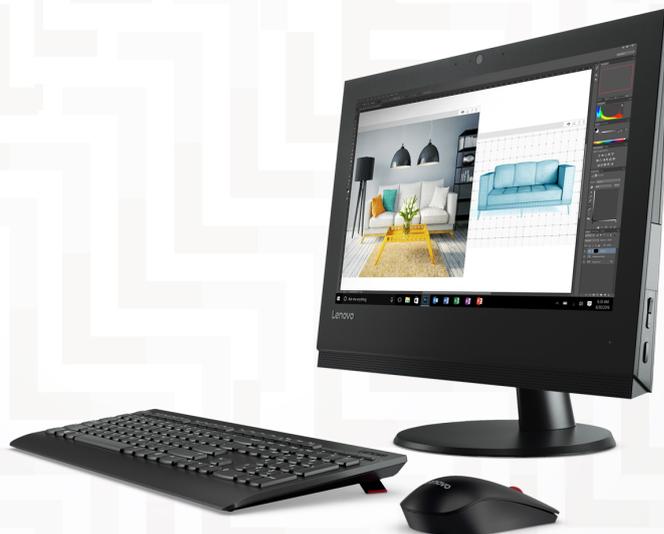

Anti-glare Design

With a 19.5" anti-glare screen, roughened at a micro-level to help scatter light, unwanted reflections and haziness are reduced - helping you to concentrate on your work.

Easy Management

All from the comfort of a single app, Lenovo Companion allows you to manage your system health, configure system updates, purge your PC of unnecessary files and much more.

WHO NEEDS THE LENOVO™ V310Z AIO?

- 1** Business owners looking for the simplest tool for the job, who appreciate an easy way to meet their needs without having to worry about reliability, performance or security.
- 2** Busy professionals rank performance and productivity highly, and buy the most current technology to keep for as long as possible for maximum value.
- 3** Concerned about keeping their data safe, small business users believe in using the cloud and look for up-to-the-minute security features when choosing their computers for work.
