Data Availability

Exclusively dedicated to securing SaaS data, Keepit's proprietary cloud is designed to ensure data availability — always.

Cost Effective

everything is included in the seat price, keeping things simple. Scale your data protection at no extra cost.

Simplicity First

A universal service that covers all your SaaS data protection needs. Loved by admins for its ease of use. Simplicity that will save you time.

Instant Recovery

Restore your data in seconds with our unique search and restore features, based on ultra-fast indexing and reindexing algorithms.

Always Secure

Described by analysts as industry-leading, our platform is purpose-built from the ground up for ultimate security.
