

# Work together with HP for a better environment!

## Recycling of original Hp Ink cartridges

HP Supplies is investing in sustainability and circularity. When recycling ink cartridges, plastic bottles are collected. Recycled plastic is recovered and reused from the original HP cartridges. This is how quality and reliable cartridges are made.

HP cartridges can be easily recycled through HP Planet Partners. Through this easy return policy, your empty original HP ink and toner cartridges are recycled.

### Discover original cartridges from HP

Do you want to avoid wasting ink and make perfect prints? Then choose the original HP ink cartridges! Benefit from accurate results on every page. Make reliable and quality prints.

### For single ink or toner cartridges

Deliver these to a collection point of an authorized supplier or request a stamped return envelope to HP.

**With your printer alone, you can ensure that productivity is increased while also reducing water and fossil fuel consumption. Would you also like to contribute? Buy your original HP cartridges today!**
