

ThinkPad, ThinkBook & ThinkCentre 2019

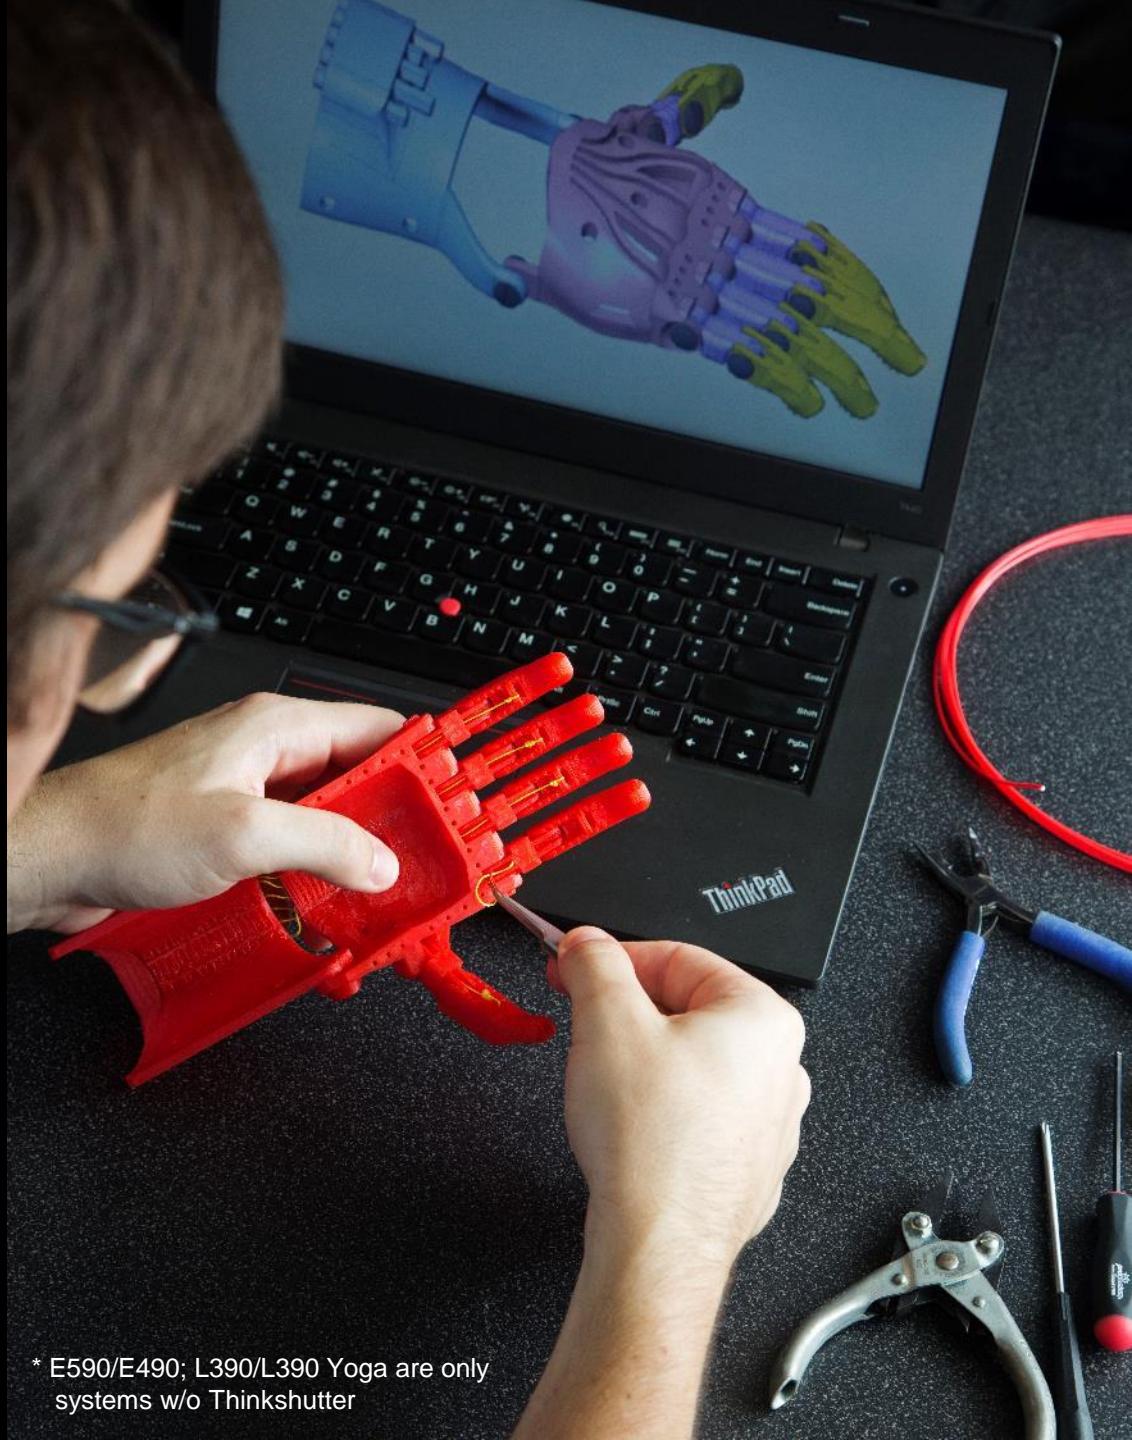

Flemming Märtens | 18. Juni, 2019

ThinkPad 2018 – 2019 Corporate Roadmap

CY 2018			CY 2019			
Q2	Q3	Q4	Q1	Q2	Q3	Q4
2017 Sky Lake ThinkPad (Win 7 DG)			T470, X270, T470s, L570, P51 Forecast needed			
2018 Kaby Lake R ThinkPad All ThinkPads						
			Non-vPro ThinkPads T490, T490s, T590, X390, X390 Yoga L390, L390 Yoga, E490, E590			
			vPro ThinkPads T490, T490s, T590, X390, X390 Yoga L490, L590, X1 Carbon, X1 Yoga			
2018 Raven Ridge AMD ThinkPad			2019 Picasso AMD ThinkPad T495, T495s, X395			

What's New on ThinkPad in 2019

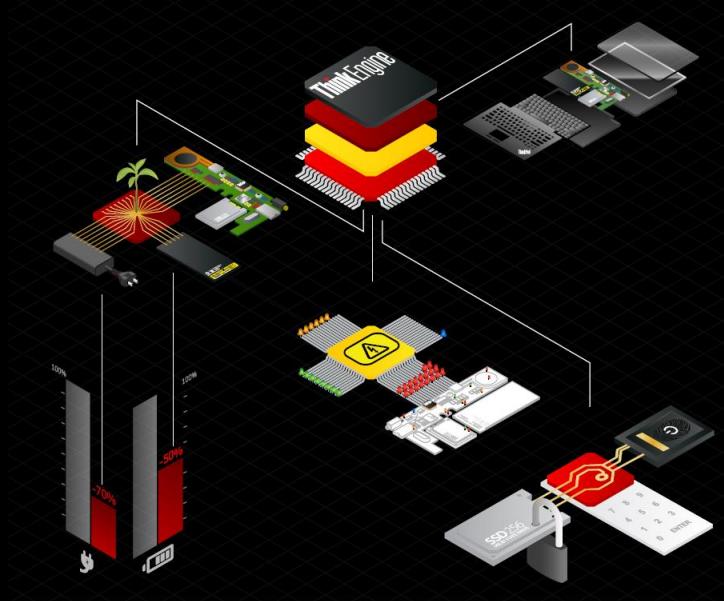

- X1, X, T are ALL completely new designs
 - First ever CNC Aluminum ThinkPad: X1 Yoga
 - X280 moves to the 13.3" X Series clamshell: X390
 - Mechanical docking expansion - now available on X1 Yoga, X390 Yoga
 - Single ThinkShutter now covers both RGB, IR – on all*
- Industry leading display technology
 - Dolby Vision / HDR displays on X1C, X1Y, X1E, T490s, T490, T590
 - New 400 NIT FHD, low power panel on 14" T Series / X1
- ThinkPad Privacy Guard on 5 platforms
 - Privacy Guard implemented on new 400 NIT FHD panel
 - T490s, T490, X1 Carbon, X1 Yoga, X390
 - Includes ThinkPad Privacy Alert shoulder surfing detection SW
- Enhanced Audio Experiences
 - Dolby Atmos sound system on X1 Carbon, X1 Yoga
 - Four rich sounding, up/down firing speakers T490
 - Four far field microphones on X1, two far field on T/X – digital personal assistant ready (eg.Cortana, Alexa)
- High Speed CAT16 WWAN on X1 Carbon, T490
 - Moving from CAT 9 to CAT 16 (450 Mbit/s -> 1024 Mbit/s)

* E590/E490; L390/L390 Yoga are only systems w/o Thinkshutter

ThinkEngine – Unique ThinkPad control chip – smarter, smaller, more efficient

- What we did:
 - ThinkEngine is a unique system management chip developed by Lenovo engineers in Japan, exclusively for ThinkPad systems.
 - Monitors up to 33 sensors simultaneously – including thermal, voltage, security, and G-sensors.
- Why it matters to customers:
 - Delivers improved thermal and power efficiency, improved standby, faster resume times, enhanced security, as well as anti-tampering measures.

ThinkEngine makes possible or improves functions such as:

Thermal Fan control, Sleep/Hibernate, Intelligent Cooling, Always on USB, Thunderbolt 3, Docking, Intelligent PC Diagnostics, Smart Standby, and others. All in a package that is 44% smaller and uses 19% less power than separate controller chips for these functions.

Low-power displays to enable 4K experience with reduced impact to battery life **ThinkEngine**

- What we did:
 - Developed a new 500-nit, HDR400, 100% Adobe color-gamut, low-power UHD (4K) display with Dolby Vision that offers a bright, crisp image without sacrificing battery life, system thinness, thin bezels or ThinkPad durability.
 - Available in flagship X1 Carbon and X1 Yoga

- Why it matters to customers:
 - A brighter, crisper image makes text, icons and details easier to see
 - The 14" UHD display offers more resolution than can be seen with the human eye (at a typical viewing distance of 18 inches).
 - LTPS (Low-temperature polycrystalline silicon) technology boosts brightness to 500-nits with the same battery life of a 300 nit display
 - 100% AdobeRGB color gamut displays a wider range of colors for accurate photo and video editing

Low-power 400 nit FHD display for brightness w/ reduced impact to battery life

- What we did:

- Developed a new 400-nit, low-power FHD (1920x1080) display that offers a bright, crisp image without sacrificing battery life, system thinness, thin bezels or ThinkPad durability.

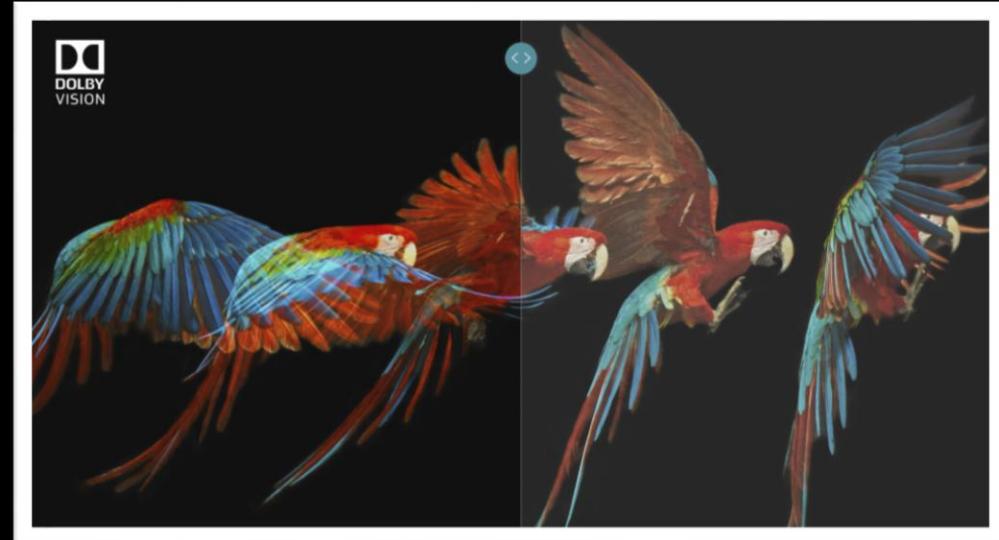

- Why it matters to customers:

- A brighter, crisper image makes text, icons and details easier to see
- The 14" FHD display offers more resolution than can be seen with the human eye (at a typical viewing distance of 18 inches).
- Outstanding battery life - LTPS technology boosts brightness to 400-nits with even better battery life than a 300 nit display.

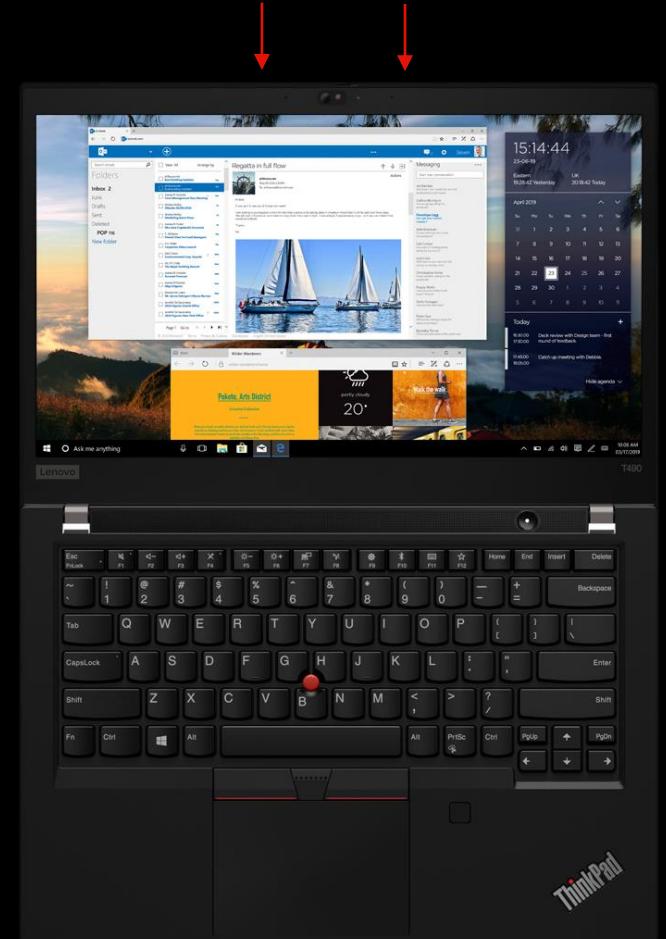

Dolby Vision / HDR on more systems for outstanding visual performance

- What we did:
 - Developed 500-nit, 100% Adobe color-gamut, Dolby Vision screen for a broader range of ThinkPad systems in 2019.
- Why it matters to customers:
 - Dolby Vision HDR brings extraordinary color, contrast and brightness for an amazing user experience.

Dual far-field microphones on T/X, quad on X1 Carbon/Yoga

- What we did:
 - Included 4 microphones on X1 Carbon and X1 Yoga
 - T Series and X Series gets dual microphones for 360° reception & 4 meter far-field performance.
- Why it matters to customers:
 - Improved user experience with VOIP conferencing performance for improved productivity, particularly when multiple participants are speaking in the same room.

4-speaker Dolby Atmos Speaker System

- What we did:
 - Redesigned X1C and X1Y for 2019 to include a 4-speaker Dolby Atmos Speaker System
 - Extensively modeled multiple designs for the placement and shape of the speakers to optimize the audio experience on each system.
 - Two top firing tweeters and two down firing woofers replace the previous design with only two total mid-range speakers.
- Why it matters to customers:
 - Outstanding audio worthy of the flagship ThinkPad notebook
 - More realistic, immersive sound with Atmos content, supporting Atmos virtual surround sound.

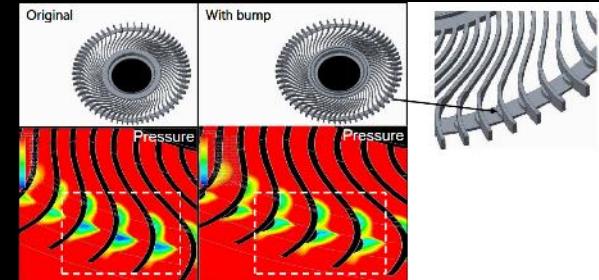

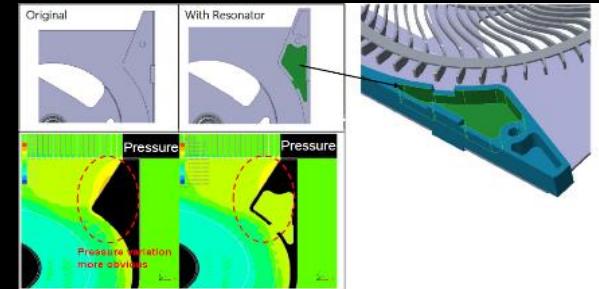

X1C, X1Y

New fan improvements for more airflow without increasing noise

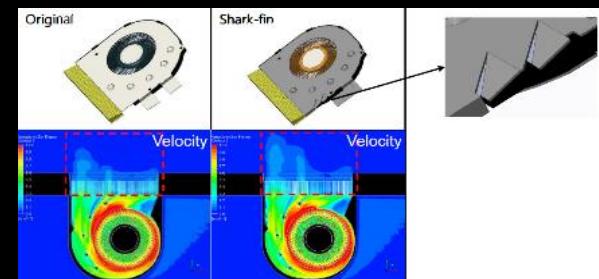

- What we did:

- Developed 3 new fan/cooling technologies to improve acoustics, increase airflow, and to make cooling more efficient.
- Added a resonating chamber to cancel high-frequency noise
- Incorporated micro-spoilers on the fan blades to reduce turbulence and increase air flow
- Designed “Shark Gill” shaped structures in the fan case to direct air more efficiently across the cooling fins in the exhaust

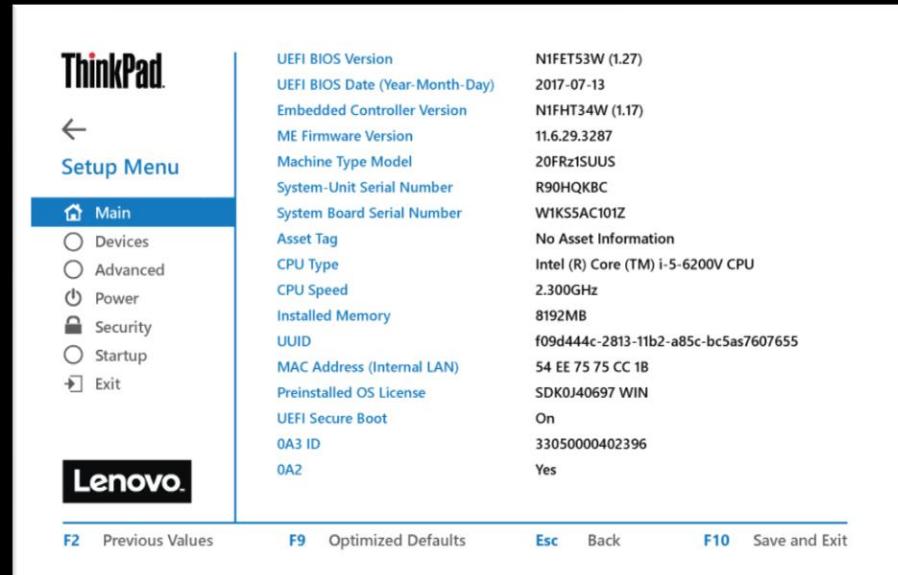

- Why it matters to customers:

- Runs quieter at a given level of cooling
- Less distraction for the user

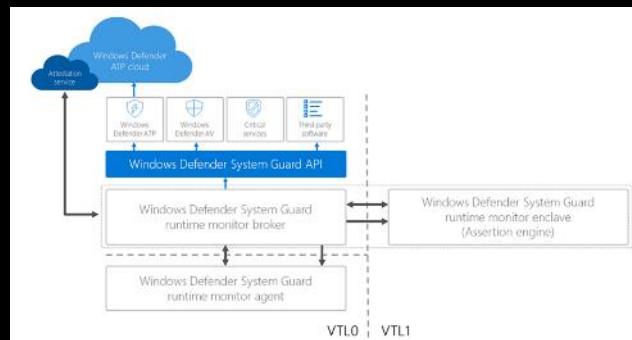

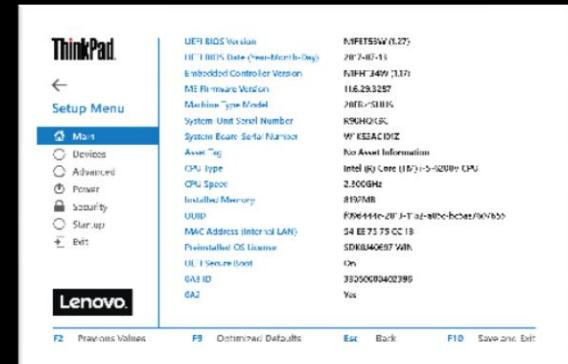

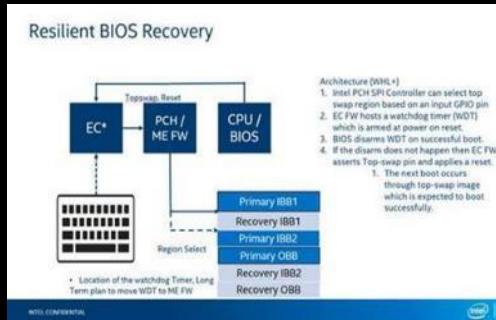

Modern BIOS - Graphical User Interface (GUI)

- Problem to be solved:
 - For many years, ThinkPad BIOS Interface was antiquated, and only supported keyboard input
- What we did:
 - Created a new and modern Graphical User Interface supporting multiple input methods.
- Why it matters to customers:
 - Customers will enjoy the new look and feel which is optimized for User Experience
 - Customers will also be able to use mouse and touch input to change BIOS settings.

A range of BIOS security enhancements extends ThinkShield leadership

- What we made:
 - Security features
 - Remote Supervisor Password Setting
 - Self-Healing BIOS
 - Secure Wipe
 - Privileged Access Password, MS System Guard support
 - Increased Port Access Control (Audio).
 - Manageability features include
 - WiFi PXE Boot
 - System Deployment Mode
 - GUI-based BIOS settings.

ThinkShield Secure Wipe

- Problem to be solved:
 - Security conscious customers require a secure and simple way to completely wipe storage drives
 - Traditional methods that once worked on spinning HDDs are not reliable on some SSDs
- What we did:
 - Added the ThinkShield Secure Wipe feature into BIOS which reliably deletes all data from a drive without the need for external tools
- Why it matters to customers:
 - Customers can now completely delete sensitive data on their drives without the need for external tools or removing the drive from the ThinkPad

ThinkShield

ThinkShutter design covering webcam & IR camera for improved camera security

- What we did:

- Engineered a new ThinkShutter which covers the new all-in-one (combined webcam and IR) camera on most 2019 ThinkPad systems.
- The new ThinkShutter is engineered around a new spring-based design with a calculated force curve which distinctly clicks into the open and closed positions.

- Why it matters to customers:

- Better camera security with both webcam and IR camera covered
- Better user experience with open and close being clearly felt by the user when open or closed.
- Now available on most 2019 ThinkPad systems.

ThinkPad Privacy Guard w/ThinkPad Privacy Alert improved & on more systems

- What we did:

- Developed an integrated ePrivacy filter, the ThinkPad Privacy Guard, which reduces the (side) viewing angles of the screen to prevent onlookers from “shoulder surfing” the contents of the user’s screen.
- This also includes ThinkPad Privacy Alert, a unique software feature that will warn users if anyone is looking at their screen and automatically turn on Privacy Guard.
- Improved brightness for 2019

- Why it matters to customers:

- The ThinkPad Privacy Guard allows users to easily reduce viewing angles on their display with a simple keystroke, making security much more convenient and consistent than an add-on screen filter.
- This allows users to work in public and keep anyone seated near them from peering at their sensitive documents and stealing critical information.
- ThinkPad Privacy Alert, adds an extra layer of security by automatically warning users if anyone is looking at their screen and automatically turning on Privacy Guard.

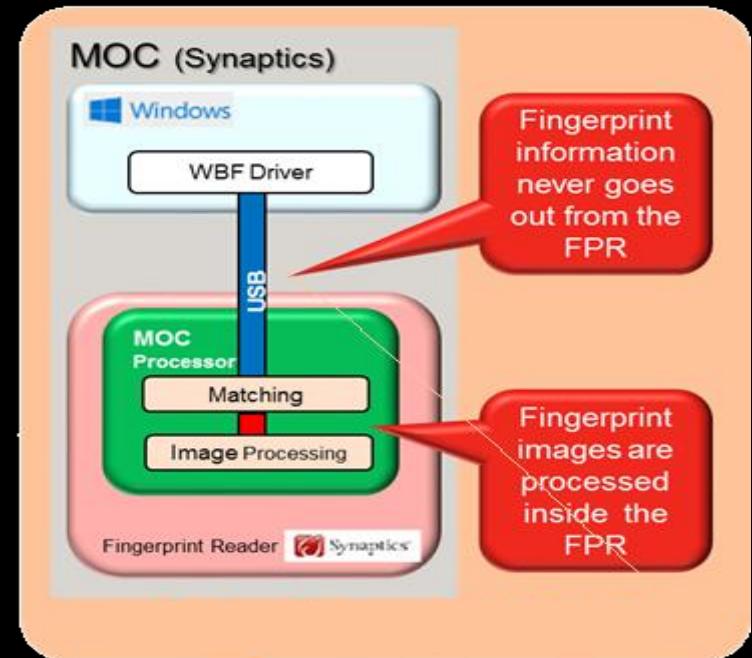

New, faster Match on Chip fingerprint reader

- What we did:

- Implemented a faster and more secure Match on Chip fingerprint reader for 2019 ThinkPad.
- As with the previous Match on Chip sensor, all fingerprint images and image matching with the previously enrolled fingerprints is done securely in the FPR, and includes “PurePrint” anti-spoofing technology.
- The 2019 sensor is 2-3x faster than the previous generation due to hardware accelerated encryption and matching, and even more secure due to in-silicon template storage.

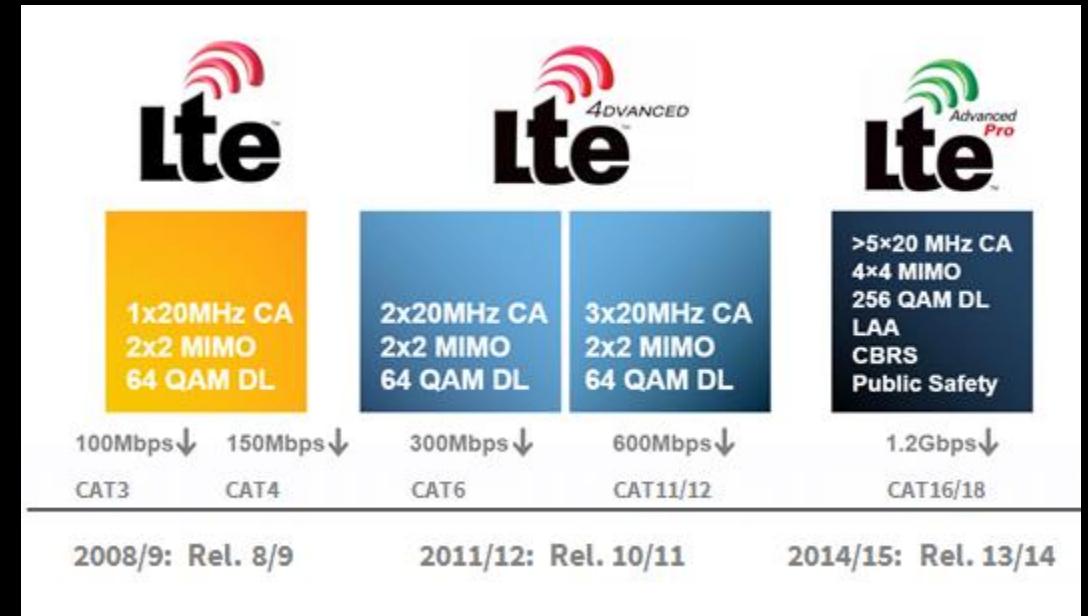

- Why it matters to customers:

- Most-secure implementation of fingerprint biometrics (MoC + anti-spoof)
- Enhances privacy of fingerprint information and secure online transactions
- Supports enterprise security requirements.
- Speed enhancements improve user experience

High Speed Wireless – WiFi 6 and CAT16 WWAN

- What we did:
 - Integrated WiFi 6 cards for a range of products
 - WiFi 6 was formerly known as 802.11ax
 - Max theoretical speed 9.6 Gbit/s
 - Lower power consumption
- What we did:
 - Integrated LTE CAT16 WWAN with 2x2 antenna support on X1C & X1Y
 - Integrated LTE CAT16 WWAN with 4x4 antenna support on T490
- Why it matters to customers:
 - Fastest available WLAN/WWAN performance, improving productivity and user experience for mobile users.
 - Selection of WWAN cards,
 - LTE cat 6 – 300 Mbit/s
 - LTE cat 9 – 450 Mbit/s
 - LTE cat 16 – 1.0 Gbit/s

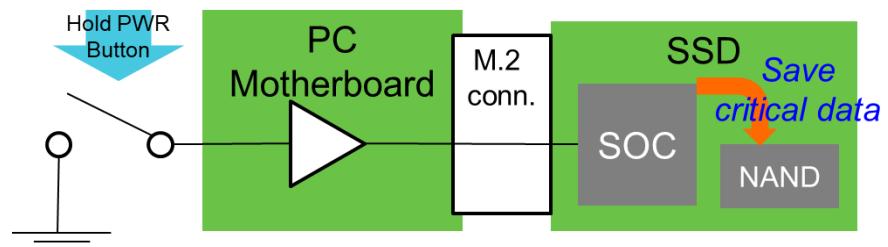

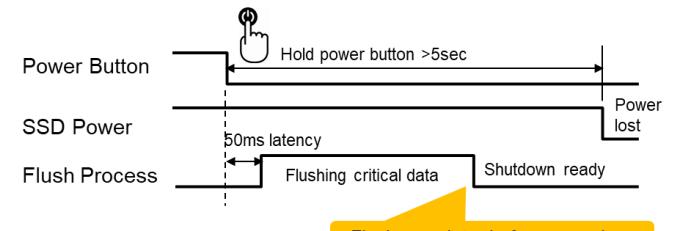

Power-loss Protection (PLP) for SSD

POWERED BY
ThinkEngine

- What we did:
 - Developed a method for preventing data loss or corruption when the power button is held down to force power-off.
 - Required integration of SSD firmware, motherboard logic, and BIOS
 - When power button is pressed, the system begins preparing the SSD for shutdown and flushes critical data within 5 seconds, before system power is lost.
 - Requires PCIe SSD or Optane Hybrid memory
- Why it matters to customers:
 - Prevents critical data loss when the system is powered down using the power button.

Timing Diagram (ungraceful shutdown case)

Mil-Spec testing – 12 Methods and 22 Procedures for commercial ThinkPad

- What we did:

- One new procedure is being added to 2019 ThinkPad MIL-STD 810G testing.
- Method 516.6 Shock adds Procedure V – Crash Hazard Shock, a test for high G force shock to the system.

- Why it matters to customers:

- ThinkPad continues to have leadership with MIL-STD in the area of total Methods and Procedures, as well as the span and consistency of testing across the portfolio.

COLD HEAT VIBE HUMID SHIP VIBE SHOCK TEMP ALTITUDE RADIATE FUNGUS DUST ATEX*

2019 ThinkPad
500.5 Low Pressure (2 procedures)
501.5 High Temperature (2 procedures)
502.5 Low Temperature (2 procedures)
503.5 Temperature Shock (2 procedures)
505.5 Solar Radiation (2 procedures)
507.5 Humidity (1 procedure)
508.6 Fungus (1 procedure)
510.5 Sand and Dust (2 procedures)
511.5 Explosive Atmosphere (1 procedure)
514.6 Vibration (2 procedures)
516.6 Shock (3 procedures) -> (4 procedures) NEW!
528 Vibrations of Shipboard (1 procedure)
Total Methods: 12
Total Procedures: 21 -> 22

ThinkShield

ThinkShield Comprehensive List of Offerings

Data

- ThinkPad Privacy Guard
- Trusted Service
- Keep Your Drive service
- WinMagic
- Absolute
- OLDB (Online Data Backup)
- SED (Self-Encrypting Drives)
- BitLocker
- HDD Password
- Smart USB Protection
- Disk Wipe Tools
- Intel Remote Secure Erase
- Lenovo Asset Recovery Service
- USB Secure Hard Drive
- Full Drive Encryption
- ITC Image Verification
- Lenovo Asset Recovery Service

Identity

- Intel Authenticate Multifactor (~*)
- Match on Chip Fingerprint
- FIDO
- Broad SmartCard Support
- Secure NFC tap-to-login
- Absolute
- Windows Hello
- Intel Online Connect
- IR Camera
- Glance Presence & Gaze Detection

Online

- BufferZone (sandboxing)
- Coronet (WiFi Security)
- MobileIron
- Lenovo Unified Workspace
- Lenovo WiFi Security
- Intel vPro
- Intel Identity Protection Technology with PKI (Public Key Infrastructure)
- Intel Software Guard Extensions (SGX)

Device

Process

- Trusted Supplier Program
- Transparent Supply Chain
- PSIRT & FIRST
- Packaging Security
- ITC Image Verification
- Secure patch/update of drivers/firmware
- Spare Parts Handling
- BIOS Reading Room

Features

- ThinkShutter
- Ready to Provision (RTP) Preload
- Kensington Lock / Tamper Switch
- Thunderbolt Security
- No backdoor Supervisor Password / NIST Compliant BIOS
- TPM 1.2/2.0
- BIOS Asset Information Area
- Lenovo Patch with Self-Healing from Absolute Software
- Intel Boot Guard
- ITC First Boot Service / Anti Bridge Switch
- Asset Tagging Service / Device Registration
- Absolute Software
- LVFS and Windows Update Firmware Updates
- HVCI Compliant Drivers / One switch DeviceGuard
- C-TPAT Logistics
- Smart USB Protection

2019 Docking

CS18 Mechanical dock

3 versions

Thunderbolt 3 Gen 2 dock

Thunderbolt 3 Workstation dock

USB C Gen 2 dock with native Video

Hybrid USB A/C hybrid dock

USB C Travel dock

Lenovo

Mechanical Dock (CS18)

CS18 Mechanical dock

- Basic, one monitor
- Pro, two monitors
- Ultra, three monitors

Enhanced security with key lock
Native Ethernet from ThinkPad

Compatible with:
2019 ThinkPads

T490, T490s, T590, T495, T495s
X390, X395, X390 Yoga
L490, L590
X1 Carbon 7th
X1 Yoga 4th

2018 ThinkPads

T480, T480s, T580, A485, X280, A285, L480, L580,
X1 Carbon 6th

USB C and Thunderbolt 3 dock

- USB C Dock Gen 2:
 - Display Connections
 - 2x DisplayPort, 1x HDMI
 - Max resolution: (DP 1.4 / DP 1.2)
 - 1x 3840*2160@60Hz / 3840*2160@30Hz
 - 2x 3840*2160@30Hz / 1920*1080@60Hz
 - 3x 1920*1080@60Hz / 1280*720@60Hz
 - Gigabit Ethernet
 - 1x USB C, 3x USB A 3.1 Gen 2, 2x USB A 2.0
 - Audio, Kensington lock slot
- Thunderbolt 3 Gen 2 dock and Workstation dock:
 - Display connections
 - 2x Displayport, 2x HDMI, 1x USB C
 - Max resolution:
 - 1x 3840*2160@60Hz
 - 2x 3840*2160@30Hz (60hz on X1 Series)
 - 3x 3840*2160@30Hz on X1 Series
 - Gigabit Ethernet
 - 1x USB C (Thunderbolt), 5x USB A 3.1 Gen 2
 - Audio, Kensington lock slot

Hybrid USB A/C Dock

- Display Connections
 - 2x DisplayPort, 2x HDMI
- Max resolution:
 - 2x 3840*2160@60Hz
- Gigabit Ethernet
- 1x USB C (Front)
- 5x USB A,
 - 2x USB 2.0, 3x USB 3.0
 - 1 Front, 4 Back
- Audio, Kensington lock slot
- Power to USB C connected laptop
- Separate power is needed for USB A connected laptop

USB C Travel dock

- USB C Travel Dock Gen 2:
 - HDMI 2.0 (4k 60Hz)
 - VGA
 - RJ45 (Gigabit)
 - USB3.0
 - USB2.0
 - USB-C Charging
- Size
 - 130x53x17mm

ThinkPad X390/X395

X390/X395 | The Next Generation of Perfected Mobility

Uncompromising Performance & Design

- Slim Bezel Design (L/R 48% narrower, top – 20% narrower)
- Up to 32GB DDR4 Memory (soldered)
- HD TN, 400 Nit FHD IPS ,FHD IPS Touch and Privacy Guard panels
- Dual Far-Field Microphones with noise cancellation

Mobility Focused

- 16.5 mm Thin / 1.22 kg Light
- Narrow Bezel
15.6 → 7.9 mm (L/R)
20.4 → 15.9 mm (TOP)
- Up to 17.6hrs of battery life
- Global LTE WWAN

Ultimate Connectivity & Enhanced Security

- Privacy Guard for a Comprehensive Privacy Solution
- ThinkShutter for RGB and Hybrid IR Camera
- IR Camera and FPR for Windows Hello

ThinkPad X390 Yoga

X390 Yoga

Versatility for any Business

Streamlined Performance

- Integrated Active Pen
- Mechanical Side Docking
- Dual Far-Field noise canceling microphones

Ultimate Portability

- Global LTE WWAN
- Up to 14.5 hrs of battery life
- 16.75mm Thin (8% thinner) and 1.29kg Light (6% lighter)
- 16% Thinner Bezels

Enhanced Security and Privacy

- IR Camera and FPR for Windows Hello
- ThinkShutter for RGB and Hybrid IR Camera

ThinkPad T490s / T495s

T490s/T495s | The Greatest T-Series Ever Built

Uncompromising Performance & Design

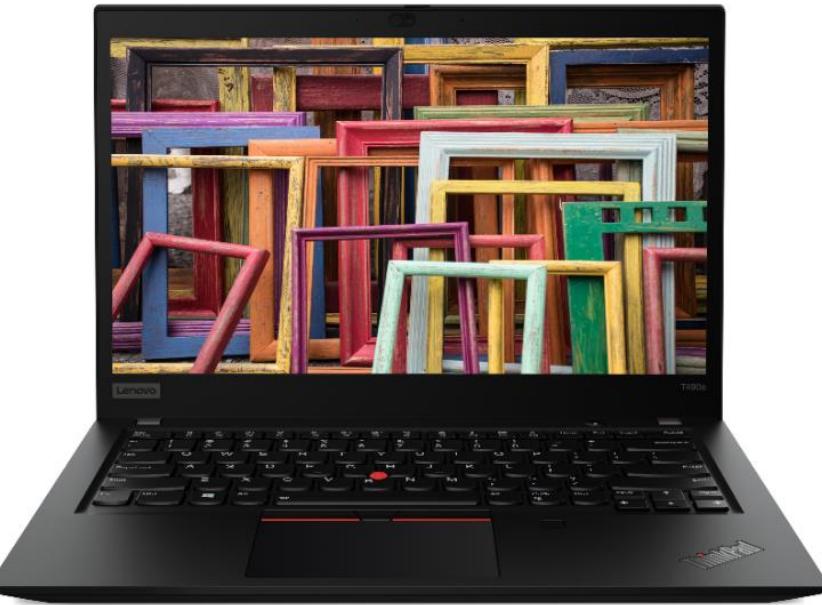

- 11% Narrower Bezel Design
- New brilliant Dolby Vision WQHD Panel option
- New low power FHD 400 NIT panel for ultimate battery life
- Enhanced audio experience with dual Far field microphones
- True, Aluminum A Cover for Silver option (T490s only)

Mobility Focused

- **Black starting at 16.1mm; 1.25 kg, 8% thinner**
 - For reference: X1 Carbon 4th gen: 16.5, 1.27kg
- **Silver starting at 17.2 mm, 1.49 kg**
- 20 hrs of MM14 battery life (low power FHD panel)
- Global LTE-A WWAN

Ultimate Connectivity & Enhanced Securi

- **Privacy Guard**
- ThinkShutter for RGB and **Hybrid IR Camera**
- IR Camera and FPR for Windows Hello
- **Mechanical, Type C or USB Docking**

ThinkPad T490 / T495

T490 / T495

The Corporate Workhorse

Uncompromising Performance

- Up-firing speakers for premium audio experience.
- Dual Far-Field microphones
- 3 New panel choices with 22% thinner bezels:
 - 400 nit Privacy Guard Display
 - 400 nit Low Power FHD IPS
 - 500 nit QHD IPS with HDR
- 5% thinner (18.9mm) and 7% lighter (1.46kg)
 - For reference - T480s: 18.5mm, X1 Carbon 1st gen: 18.8mm
- Discrete MX250 nVidia Graphics (T490 only)

Unparalleled Connectivity

- Quad-antenna CAT16 WWAN availability
- 14+ hrs battery life with rapid charge

Enhanced Security

- Privacy Guard – e privacy solution
- ThinkShutter for RGB and Hybrid IR Camera
- IR Camera and FPR for Windows Hello

ThinkPad L490/L590

L490/L590 Mainstream Commercial

All Day Performance & Power

- Core i WHL CPUs
- New AMD Radeon 535 Discrete Graphics
- Up to 12 hrs of Battery Life + Rapid Charge

Essential Connectivity

- 2x Type-C (1x 3.1 Gen 2), 2x Type-A 3.1 Gen 1
- Mechanical Docking support
- Global LTE WWAN
- Wifi-6 support on vPro sku

Built for Business

- IR Camera and FPR for Windows Hello
- ThinkShutter 100% for RGB and IR Camera
- Dual DIMM (64 GB RAM)

FIVE METAL ELEMENTS MAKES THINKBOOK S

Position in Periodic Table of the Element

Al 13 Aluminum	Mg 12 Magnesium	Zn 30 Zinc	In 49 Indium	Sn 50 Stannum
----------------------	-----------------------	------------------	--------------------	---------------------

Classic:

- Metal A/C/D cover: Al cover with Mg element

Vacuum Indium coating hinge:

Non-conductive vacuum metallization (NCVM) coating technology

- Base material of the hinge surface is In & Sn (The In total reserves in world's is 50,000 tons)
- Avoid Wi-Fi interference of radio frequency (RF) signals compare with other metallization methods such as aluminum
- Corrosion resistant

Zinc alloy inside hinge material with powder metallurgy technology:

- More durability compare with normal casting technology
- 25000 cycles hinge open and close test
- Excellent cooling with hinge design

NCVM coating technology
Zinc alloy inside material
Use powder metallurgy technology
